networkMaryland Service Delivery Options

Physical Port Connection and Monitoring - On Net					
Services delivered over State-owned or Resource Share fiber optic cable.					
Part Number	Connection Type	Cost/Month	NRC		Notes
pconn-eth100-c	Ethernet 10/100 - Copper	\$ 100.00	\$ -		Category 5(e)/6(e) UTP Ethernet connection
pconn-eth100-f	Ethernet 10/100 - Fiber	\$ 100.00	\$ -		Single or Multimode Fiber Ethernet connection
pconn-ge-c	Gigabit Ethernet - Copper	\$ 200.00	\$ -		Category 5(e)/6(e) UTP Ethernet connection

(Note C) The table above reflects ONLY the Physical Port Connection and Monitoring (PPCM) charge. In addition to the PPCM charge, networkMaryland will bill actual Ethernet Everywhere circuit costs. Actual costs will vary by circuit depending on the number of T1s comprising the circuit and the circuit miles as shown below.

(Note D) Cost/Mbps assumes an average cost of \$220 per T1 circuit. This is used for estimating the cost per Mbps only. Actual cost may be less or more depending on mileage band.
