

RFP 060B7400059 Meeting Live Streaming and Hosting Services  
Amendment #1  
Pre-proposal information

This amendment is being published to release the pre-proposal audio recording and attendance sheet.

There is a clarification of note to all potential Offerors:

The State uses examples in the RFP to illustrate some of the features. For instance, on page 31 of the RFP, letter v. refers to Cisco IOS LLQ. The State is not endorsing, recommending or requiring that any examples used are required as part of the RFP or must be a part of the proposed solution.

You must acknowledge any amendments to the RFP and submit the acknowledgement with your proposal. Please return page 2 with your submission.

Thank you.

June Dwyer  
Procurement Officer
