

CATS II RFR # F50B2400061, 10 –IT Management and Consulting Services

**Release Date: 04/05/2012,
This Amendment#1 Issued: 04/13/2012**

To CATS II Master Contractors in Functional Area 10:

This Amendment #1 is being issued to amend and clarify certain information contained in the above referenced RFR. All information contained herein is binding on all Offerors who respond to this RFR.

1. Change in Minimum Experience/Knowledge/Skill

Under Labor Category, Project Manager

- "PMI/PMP certification has been removed as a requirement

2. Question

If the resources need to have worked with Google certified partners, Are you expecting CATS II contractors to team up with Google certified partners or if we provide resumes with prior experience working with Google certified partners with required experience will that be sufficient?

Response:

The requirement is that the resources are currently working for a Google Certified Partner. If a CATS II master contractor that is not a Google Certified Partner wants to propose, the master contractor would have to partner with a Google Certified Partner that would provide the resources for the engagement.

3. Question

Can Google bid on this work and if not why?

Response:

Google may not bid because Google is not a CATS II Master Contractor. Master Contractors are always allowed to subcontract any elements of the scope that they cannot perform themselves.
