Section 3 – Scope of Work			

## Request for Resume (RFR) CATS II Master Contract

### Background

The Department of Budget and Management (DBM), in a joint effort with the Department of Information Technology (DoIT) launched the Statewide Personnel System (SPS) Project in November 2007 to replace the Personnel, Benefits and Time Keeping (LAS, TESS, MDTIME) systems. The SPS team is championing the Data Consolidation effort to make data available to the potential Offeror in a timely manner for data conversion.

The SPS Data Consolidation project aims to :

- Create a single, unified SQL Server based staging repository of State personnel information to provide for the SPS project.
- All State data should be accessible and available in a central repository at one place, in one system. All personnel assigned to analyze, cleanse and provide Sate data sets for the SPS solution should be able to access the Staging database.
- Provide a Unified single repository for historical Information

The Department of Budget and Management (DBM) in Baltimore is seeking a Sql Server developer to take on key role in the SPS Data Consolidation Project.

Given the sensitivity of data associated with this project, the TO Contractor personnel assigned to this project must comply with the requirements of CATS II RFP Section 2.4.3.2 and sign a non-disclosure affidavit as provided as Attachment 7 and Attachment 8.

**Please note that the Master Contractor awarded this TO Agreement may NOT submit proposal(s) in response to any subsequent Statewide Personnel System solicitation(s) for the direct implementation of the planned HR system.**

### Job Description/s

Position Title/s or Service Type/s (From Section 1 Above)	Duties / Responsibilities
Senior SQL Server Developer/DBA (up to two candidates)	<p>The successful candidate will act as a key resource in designing, configuring, developing, testing and performing Sql Server Database Administration (DBA) activities; utilizing extensive knowledge of Sql Server to design, develop data consolidation technical requirements.</p> <p>This position requires the ability to recommend and influence best practice solutions for data consolidation. This position will perform duties as assigned by the Project Manager that will generally include, but are not limited to the following:</p> <ul style="list-style-type: none"> <li>- Facilitate requirements gathering and documentation efforts;</li> <li>- Refine any requirements to include: prioritization, elimination and consolidation;</li> <li>- Document Validation test Cases and scripts;</li> <li>- Identify, document and escalate risks and issues;</li> <li>- Adhere to project protocols and guidelines, reporting to the project manager;</li> </ul>

## Request for Resume (RFR) CATS II Master Contract
