Background

Maryland State Department of Education (MSDE) has assumed a progressive stance in the collection, validation and reporting of education accountability data. The state established its first Educational Data Warehouse (EDW) in 1999 and today strives to achieve the ten essential elements and fundamentals for PreK-12 longitudinal data systems established by the Data Quality Campaign, see www.dataqualitycampaign.org for additional information on the ten essential requirements.

With the increase in reporting requirements for Federal, and State longitudinal student data, MSDE is increasing the kinds of student data collected and analyzed. To help MSDE achieve this aim, The Division of Accountability and Assessment is modernizing and enhancing its; (1) Educational Data Warehouse (EDW) and (2) associated data collection systems. As a result of a multitude of new projects within DAA, there is an increased need for additional specialized data modelers with ETL Informatica skills to create and maintain database data and data structures using Erwin ERDs, dimensional models, OLPA models, and data dictionaries.

The objective of this Request for Resume (RFR) is to acquire the short-term services of <u>One (1)</u> Senior Information Technology Architect for data modeling and Informatica ETL Expert to develop and maintain data structures and data in DAA existing Educational Data Warehouse, Edfacts reporting database, the Educational Data Operational Store, and other DAA relational and data mart database data structures and sets.

Job Description/s		
Position Title/s or Service Type/s (From Section 1 Above)	Duties / Responsibilities	
38. Senior Information Technology	1. Analyze complex K12 education accountability and	
Architect – Education Data Warehouse	performance reporting and data storage requirements	
Data Modeler and Informatica ETL	with end users and OBIEE developers,	
Expert	2. Prepare data models that support the creation of K12	
	data structures, KPI development, and dashboard	
	development in Oracle 11g and ERWIN	
	3. Create data structures for relational, star schemas, and	
	data marts schemas	
	4. Prepare and execute Informatica ELT programs to	
	maintain and transform existing and new data sets	

Minimum Qualifications		
Position Title/s or Service Type/s (From Section 1 Above)	Required Experience/Knowledge/Skill	
38. Senior Information Technology Architect – Education Data Warehouse Data Modeler and Informatica ETL	For minimum requirements, see CATS II Labor Category for 38. Senior Information Technology Architect	
Expert	 THE CANDIDATE MUST ALSO: Demonstrate all aspects of proper communication skills, both verbal and non-verbal. The candidate must articulate clear and concise responses to the interview questions Possess good interpersonal communication skills and proper attire.
