SECTION 2 - SCOPE OF WORK

2.1 PURPOSE

This CATS II TORFP has been issued to acquire contractor maintenance and support services for the MDE's Web Applications, Non-Web Applications, SharePoint 2007 for Internet Content Management System (CMS) and web environment. These systems are located at the MDE Headquarters at 1800 Washington Blvd., Baltimore, Maryland 21230.

The TO Contractor shall provide the necessary labor to perform the following discrete major tasks within the scope of this TORFP to ensure that the following goals and objectives are met:

- 2.1.1** Provide maintenance and support services for MDE's web applications and non-web applications.
- 2.1.2** Provide project administration and software support for the production, staging, and development/test environments for MDE's SharePoint 2007 for Internet CMS. Activities include system administration to address incidents, change requests, upgrades, and Work Order projects.
- 2.1.3** Support additional Work Orders for projects on a Time and Materials basis that may include web application development, SharePoint maintenance, upgrades, technology refresh, and modifications. The scope of Work Order projects will be related to the MDE website found at www.mde.state.md.us, which is contained within MDE's web systems architecture and/or requested through a Work Order approval process.
- 2.1.4** Establish configuration change control processes and Service Level Agreements (SLA) with MDE.
- 2.1.5** Provide end-of-contract transition services to the State.

2.2 BACKGROUND

In 2009, MDE initiated the Web Revamp Project (WRP) to replace the legacy website CMS with Microsoft Office SharePoint for Internet 2007. The WRP was a phased project with Phase 1 of the project focused on the migration of the legacy website to a new SharePoint 2007 platform, cleanse and migrate the content and web applications, develop a web governance policy to manage content, and build a framework on which to support Phase 2 functionality. Phase 2 of the project implemented an Online Lead Rental Registration (OLRR) Application with fee payment. The Lead Application enabled MDE customers to submit online through the Internet a new lead rental property registration or a renewal of an existing lead rental property and make payment for those properties. To support the fee payment functionality, MDE implemented a payment collection gateway (PCG) through Bank of America (BoA), which is the Maryland State Government's bank. The PCG implementation is called V-Relay. This payment gateway enabled MDE to accept credit/debit and Automated Clearing House (ACH) fee payments through the Internet. In doing so, this laid the basic technology foundation to conduct online payment services. MDE anticipates the reuse of this eCommerce architecture for future online payment services.

MDE is currently engaged in a project called the Water Supply Information and Permitting System (WSIPS). The purpose of this project is to develop a new online system for the Water Supply Program (WSP) that will facilitate and expedite several business processes that include the submission of water appropriation permit applications, analysis and approval of the permit applications, and subsequent monitoring of permitted compliance with MDE specified conditions associated with the permits. The system will also enable authorized users to check the status of permit applications and issued permits at any time and includes the capability for authorized users to produce both pre-defined and user-defined reports. Although no fees are currently being charged for issuing water supply permits, the WSP does want to have the ability to charge a fee in the future. MDE implemented eCommerce technology to enable online

payment of permit fees via the Internet and as part of the OLRR project noted above as Phase 2 of the WRP. The technology for this application is a .NET user interface with a SQL Server 2008 backend database. This application will include integration with Environmental Systems Research Institute (ESRI) GIS technologies to include ArcGIS version 9.3.1 or 10.1. MDE is planning to upgrade to SharePoint 2010 in the next few years to stay current with this technology. The WSIPS project is currently scheduled to be completed in November 2013. At that time, this application will become part of the inventory of systems applications that will be maintained and supported under this TORFP.

REPORTING REQUIREMENTS

CATS II TORFP # U00B3400001

These instructions are meant to accompany the customized reporting forms sent to you by the TO Manager. If, after reading these instructions, you have additional questions or need further clarification, please contact the TO Manager immediately.

1. As the TO Contractor, you have entered into a TO Agreement with the State of Maryland. As such, your company/firm is responsible for successful completion of all deliverables under the contract, including your commitment to making a good faith effort to meet the MBE participation goal(s) established for TORFP. Part of that effort, as outlined in the TORFP, includes submission of monthly reports to the State regarding the previous month's MBE payment activity. Reporting forms D-5 (TO Contractor Paid/Unpaid MBE Invoice Report) and D-6 (Subcontractor Paid/Unpaid MBE Invoice Report) are attached for your use and convenience.
2. The TO Contractor must complete a separate Form D-5 for each MBE subcontractor for each month of the contract and submit one copy to each of the locations indicated at the bottom of the form. The report is due no later than the 15th of the month following the month that is being reported. For example, the report for January's activity is due no later than the 15th of February. With the approval of the TO Manager, the report may be submitted electronically. Note: Reports are required to be submitted each month, regardless of whether there was any MBE payment activity for the reporting month.
3. The TO Contractor is responsible for ensuring that each subcontractor receives a copy (electronic copy and/or hard copy) of Form D-6. The TO Contractor should make sure that the subcontractor receives all the information necessary to complete the form properly, i.e., all of the information located in the upper right corner of the form. It may be wise to customize Form D-6 (upper right corner of the form) for the subcontractor the same way that Form D-5 was customized by the TO Manager for the benefit of the TO Contractor. This will help to minimize any confusion for those who receive and review the reports.
4. It is the responsibility of the TO Contractor to make sure that all subcontractors submit reports no later than the 15th day of each month, regardless of whether there was any MBE payment activity for the reporting month. Actual payment data is verified and entered into the State's financial management tracking system from the subcontractor's D-6 report only. Therefore, if the subcontractor(s) do not submit their D-6 payment reports, the TO Contractor cannot and will not be given credit for subcontractor payments, regardless of the TO Contractor's proper submission of Form D-5. The TO Manager will contact the TO Contractor if reports are not received each month from either the prime contractor or any of the identified subcontractors. The TO Contractor must promptly notify the TO Manager if, during the course of the contract, a new MBE subcontractor is utilized. Failure to comply with the MBE contract provisions and reporting requirements may result in sanctions, as provided by COMAR 21.11.03.13.

CERTIFIED MBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT

This document shall be included with the submittal of the Offeror's TO Proposal. If the Offeror fails to submit this form with the TO Proposal, the TO Procurement Officer shall determine that the Offeror's TO Proposal is not reasonably susceptible of being selected for award.

In conjunction with the offer submitted in response to TORFP # U00B3400001, I affirm the following:

1. I acknowledge the overall certified Minority Business Enterprise (MBE) participation goal of 25 percent and, if specified in the TORFP, sub-goals of zero (0) percent for MBEs classified as African American-owned and zero (0) percent for MBEs classified as women-owned. I have made a good faith effort to achieve this goal.

OR

After having made a good faith effort to achieve the MBE participation goal, I conclude that I am unable to achieve it. Instead, I intend to achieve an MBE goal of _____percent and request a waiver of the remainder of the goal. If I am selected as the apparent TO Agreement awardee, I will submit written waiver documentation that complies with COMAR 21.11.03.11 within ten (10) business days of receiving notification that our firm is the apparent low bidder or the apparent awardee.

2. I have identified the specific commitment of certified MBEs by completing and submitting an MBE Participation Schedule (Attachment 2 - Form D-2) with the proposal.
3. I acknowledge that the MBE subcontractors/suppliers listed in the MBE Participation Schedule will be used to accomplish the percentage of MBE participation that I intend to achieve.
4. I understand that if I am notified that I am the apparent TO Agreement awardee, I must submit the following documentation within ten (10) working days of receiving notice of the potential award or from the date of conditional award (per COMAR 21.11.03.10), whichever is earlier.
 - (a) Outreach Efforts Compliance Statement (Attachment D-3)
 - (b) Subcontractor Project Participation Statement (Attachment D-4)
 - (c) MBE Waiver Documentation per COMAR 21.11.03.11 (if applicable)
 - (d) Any other documentation required by the TO Procurement Officer to ascertain Offeror's responsibility in connection with the certified MBE participation goal.

If I am the apparent TO Agreement awardee, I acknowledge that if I fail to return each completed document within the required time, the TO Procurement Officer may determine that I am not responsible and therefore not eligible for TO Agreement award. If the TO Agreement has already been awarded, the award is voidable.

5. In the solicitation of subcontract quotations or offers, MBE subcontractors were provided not less than the same information and amount of time to respond as were non-MBE subcontractors.

I solemnly affirm under the penalties of perjury that the contents of this paper are true to the best of my knowledge, information, and belief.
