Instructions

- 1. See the Instructions in the solicitation for more detail.
- 2. Create one Excel worksheet per resource.
- 3. Insert one gray requirement line per requirement, indicating the requirement source, the source number, and the requirement text.
- 4. For each requirement, insert columns as necessary to include adequate examples.
- 5. Fill out each example completely. Do <u>not</u> enter cross references with "see *xyz* " where *xyz* is an external document, or different line in this worksheet.

In case of conflicting instructions, ask for a clarification from the TO Requesting Agency.
