147	SPRGEOSP9001	Hexagon Geospatial (HGD) Enterprise License Agreement (ELA)	Proposed Enterprise License Agreement (ELA) – State of Maryland. ELA as defined available through 6/30/2017 - see description below.	2016	Enterprise	See license usage in Proposed ELA – State of Maryland

Proposed Enterprise License Agreement (ELA) - State of Maryland

Hexagon Geospatial proposes an ELA offering Hexagon Power Portfolio of products and support to be made available to Maryland's stakeholders. Under this agreement any State and Local Government Agency as well as State owned Universities and Colleges will have access to these software technologies with the following conditions:

- Up to 20 Licenses with LACs for your State and Local Government usage
- Unlimited Licenses with LACs for your State owned Universities and Colleges

Product customization and IT services are not considered as support, and thus are not covered in this proposal. A separate Statement of Work (SOW) quote will be utilized for the implementation and training of any listed products that require Services.

PRODUCT PORTFOLIO

Suite	Product Category	Product Examples	Workflow Examples
PRODUCER	GIS Desktop	GeoMedia® Professional GeoMedia Transportation Manager	Vector data capture & analysis Advanced spatial data synthesis Grid and terrain analysis Parcel management Network connectivity and analysis Multi-level linear referencing system management and analysis
PRODUCER	Remote Sensing	ERDAS IMAGINE Professional IMAGINE Expansion Pack	Integrated geospatial data processing (raster, vector, point cloud) and analysis. Spatial modelling (Including point cloud operators) Radar analysis 3D point, raster and vector view/edit
PRODUCER	Photogrammetry	ImageStation IMAGINE Photogrammetry IMAGINE Auto DTM IMAGINE Terrain Editor Stereo Analyst® for ArcGIS®	Stereo feature collection in ArcGIS, MicroStation, Bentley Map, GeoMedia Distributed orthomosaicing AutoDTM correlation (sparse, dense and SGM) Stereo Terrain Editing
PROVIDER	Data Management and Compression	ERDAS APOLLO ERDAS ECW for ArcGIS Server ERDAS ECW/JP2 SDK	Data cataloguing, search, harvest Data compression, high-performance raster serving
PLATFORM	Workflow GIS	GeoMedia Smart Client	Workflow-oriented spatial data access and editing (GIS for the non-professional GIS user) Zero-administration JAVA clients Customizable geospatial workflows
PLATFORM	WebGIS	GeoMedia WebMap Geospatial SDI Geospatial Portal	Publishing high-performance web services and web applications. Linked spatial data serving via OGC and INSPIRE standards Fully functional, configurable and customizable web portal
PLATFORM	Mobile	Mobile MapWorks Mobile Alert	Create/edit/update workflows for mobile devices (iOS, Android) Crowd-sourcing solutions for government and public access points

Hexagon Geospatial Mobile Products
