[Training Presentation](#) - to be viewed with Appendix C

- Start to clean up your appropriation balances and do not forget to set up your 25 Profile for FY 2018. Easy steps are located on DolT's website: [Year End Close 25 Profile](#).
- **Prior month/year post**

Fiscal Year End Close will be upon us very soon. One security issue that always arises is a user's ability to prior month and/or prior year post in R*STARS/ADPICS. To eliminate the need for emergency form processing, please follow these steps to ensure everyone at your agency has the correct security set up:

- Review the bi-monthly security report which will be sent out the first week of May. The first report is the 96A report and captures prior month/year status. If the user has a Y, then access exists. If a user has an N, then they do not have this access. Do not assume users have or don't have this access. It is a time consuming process for DolT Security Services to search each user to find that they already have this access so please check the report first.
- Once you determine that a user needs access, an original memo on agency letterhead is to be sent to DolT/EIS Security Services (faxes/emails will not be accepted) listing the logon ID, user name, and the user class needing prior month and/or prior year posting ability. Both the Functional Coordinator and the Security Officer

MUST sign the memo or it will not be accepted. If multiple pages are sent, signatures are required on all pages. We will only accept one memo per agency. If someone is left off of the memo, a security form will need to be completed for that individual. No modifications will be made to the memo.
