CATS II RFR # F50B2400061, 10 –IT Management and Consulting Services

**Release Date: 04/05/2012,
This Amendment#2 Issued: 04/17/2012**

To CATS II Master Contractors in Functional Area 10:

This Amendment #2 is being issued to amend and clarify certain information contained in the above referenced RFR. All information contained herein is binding on all Offerors who respond to this RFR.

The Department of IT is in the process of migrating a 6,500 person Unit to Google Apps from GroupWise. This migration will take place in locations throughout the State. The resources acquired through this RFR are expected to work, on average, 10-20 hours per week based on the specific schedule of the implementation. The migration will include data surrounding email, calendar, and contacts. DoIT has successfully migrated data from GroupWise to Google Apps using two products that will be made available to the migration team: GAMME and Cloud Connect. The change management lead will interface with a Google training partner yet to be identified. A majority of the work can be accomplished off-site, but there will be a requirement of being on-site for up to 10 days, including 3 continuous days surrounding the “go live” date.
