Section 3 – Scope of Work			
Background			
<p>In 2006, the State completed a Systems and Application Risk Assessment to identify and quantify operational and service delivery risks associated with the current inventory of mission critical enterprise applications. The findings indicated an unacceptable risk level with the 30 year old legacy personnel management system due to its underlying architecture, age and costly maintenance challenges. Due to this outdated and inflexible personnel system used to manage HR processes, the OPSB is at a disadvantage in meeting business objectives. It is anticipated that the new HR system will be a major improvement for Maryland state government by providing an integrated human resource information system that is scalable, maintainable, and upgradeable in order to serve the state for years to come.</p> <p>Pursuant to replacing the legacy HR systems with a new integrated enterprise resource system (ERP), the State selected Oracle/PeopleSoft Enterprise 9.1 Human Capital Management (HCM) software as the Commercial Off the Shelf (COTS) solution. The State plans to use its standard features by configuration as much as possible, and minimize customization of the COTS solution.</p> <p>To date the State has performed substantial “as is” and “to be” state business process reengineering (BPR) requirements gathering in preparation for Fit/Gap Analysis and the new system design phase. Required Tasks, estimate resources, and time to complete tasks have been allocated in a Work Breakdown Structure (WBS) and Schedule.</p> <p>Currently, the Department of Budget and Management (DBM) in Baltimore is seeking Senior Business Systems Analyst to take on key role in a Statewide implementation of Oracle PeopleSoft HCM and HR Data Warehouse.</p> <p>Given the sensitivity of data associated with this project, the TO Contractor personnel assigned to this project must comply with the requirements of CATS II RFP Section 2.4.3.2 and sign a non-disclosure affidavit as provided as Attachment 7 and Attachment 8.</p> <p>Please note that the Master Contractor awarded this TO Agreement may NOT submit proposal(s) in response to any subsequent Statewide Personnel System solicitation(s) for the direct implementation of the planned HR system.</p>			
Job Description/s			
Position Title/s or Service Type/s (From Section 1 Above)		Duties / Responsibilities	
CATSII Labor Category #3: Senior Subject Matter Expert - Senior PeopleSoft Systems Analyst		The successful candidate will act as a key business partner with various functions of HR; utilizing extensive knowledge of HR functional processes and PeopleSoft HCM application expertise to finalize functional requirements and design new and improved HR business processes. The successful candidate must have recent knowledge and experience documenting HR business requirements and HR process design; an understanding of HR systems configuration, and a proven ability to provide detailed configuration specifications documentation is also required.
