The TO Agreement will bind each selected Master Contractor (TO Contractor) to the contents of its TO Proposal, including the TO Financial Proposal.

1.4 TO PROPOSAL SUBMISSIONS

1.7 TO PRE-PROPOSAL CONFERENCE

A pre-proposal conference will be held at the time, date and location indicated on the Key Information Summary Sheet. Attendance at the pre-proposal conference is not mandatory, but all Master Contractors are encouraged to attend in order to facilitate better preparation of their proposals.

The TO Requesting Agency will make reasonable efforts to provide such special accommodation.

1.8 CONFLICT OF INTEREST

The TO Contractor shall provide IT technical and/or consulting services for State agencies or component programs with those agencies, and shall do so impartially and without any conflicts of interest. Each Offeror shall complete and include with its TO Proposal a Conflict of Interest Affidavit and Disclosure in the form included as Attachment I of this TORFP. All Offerors are advised that if a TO Agreement is awarded as a result of this solicitation, the TO Contractor’s Personnel who perform or control work under this TO Agreement and each of the participating subcontractor personnel who perform or control work under this TO Agreement shall be required to complete agreements substantially similar to Attachment I.

If the TO Procurement Officer makes a determination that facts or circumstances exist that give rise to or could
in the future give rise to a conflict of interest within the meaning of COMAR 21.05.08.08A, the TO
Procurement Officer may reject an Offeror’s TO Proposal under COMAR 21.06.02.03B.

Master Contractors should be aware that the State Ethics Law, Md. Code Ann., General Provisions Article, Title
5, might limit the selected Master Contractor's ability to participate in future related procurements, depending
upon specific circumstances.

By submitting a Conflict of Interest Affidavit and Disclosure, the Offeror shall be construed as certifying all TO
Contractor Personnel and subcontractors are also without a conflict of interest as defined in COMAR

an MBE subcontractor participation goal for each Work Order issued and set a goal, if appropriate.

B. Each Master Contractor that responds to this TORFP must complete, sign, and submit, without edits,
Attachment D - TORFP, Acknowledgment of Work Order MBE Requirements at the time of TO
Proposal submission in response to this TORFP. Failure of the Master Contractor to complete, sign, and

required MBE documentation at the time of Work Order Proposal submission. Failure to do so will
result in the State’s rejection of the Master Contractor’s proposal to the Work Order.

D. In 2014, Maryland adopted new regulations as part of its Minority Business Enterprise (MBE) program
concerning MBE primes. Those new regulations, which became effective June 9, 2014 and are being

contract, an agency may count the distinct, clearly defined portion of the work of the contract that the
certified MBE firm performs with its own forces toward fulfilling up to fifty-percent (50%) of the MBE
participation goal (overall) and up to one hundred percent (100%) of not more than one of the MBE
participation subgoals, if any, established for the contract. Please see the attached MBE forms and
instructions.

The State will monitor both the TO Contractor’s efforts to achieve the MBE participation goal and compliance with reporting requirements. Monthly reporting of MBE participation is required in accordance with the terms and conditions of the CATS+ Master Contract.

2) (If Applicable) An MBE Prime Contractor Report (Attachment D-4B) identifying an MBE prime’s self-performing work to be counted towards the MBE participation goals.

B. The TO Contractor must ensure that each MBE subcontractor provides a completed Subcontractor Paid/Unpaid MBE Invoice Report (Attachment D-5) by the 15th of each month.

C. Subcontractor reporting must be sent directly from the subcontractor to the State designated employee. The TO Contractor must e-mail all completed forms, copies of invoices and checks paid to the MBE directly to the TO Manager.

3 SCOPE OF OBJECTIVES

3.1 BACKGROUND/PURPOSE

The State of Maryland traditionally has employed a Waterfall method of developing IT systems, whereby all project work proceeds through a series of phases. DoIT is updating its policies and practices for Major IT Development Projects (MITDPs) by replacing Waterfall-based practices with lean-agile methods. The purpose of this TORFP is to provide a streamlined procurement process to support the need for agile delivery services. This TORFP intends to create a “pool” of qualified, agile resources who can be engaged, on an as needed basis, to support the State in planning and implementation of IT system development efforts, utilizing a TO Contractor pool comprised of highly qualified and capable firms that specialize in recruiting and retaining information technology personnel that work in State government agencies.

The TORFP encompasses three categories of services:

Category 2 – Agile Consulting Services
Category 3 – System Development and Implementation

During this secondary level of competition, requirements and services will be requested using the Work Order process outlined in Section 3 (refer to TORFP Section 3.2 for examples of potential services). At DoIT’s discretion, each written/formal Work Order request may be issued to one or all TO Contractors. Work Orders may require more than one category of service.

c. Some State sites, especially those premises of the Department of Public Safety and Correctional Services, require each person entering the premises to document and inventory items (such as tools and equipment) being brought onto the site, and to submit to a physical search of his or her person. Therefore, TO Contractor Personnel must always have available an inventory list of tools being brought onto a site and be prepared to present the inventory list to the State staff or an officer upon arrival for review, as well as present the tools or equipment for inspection. Before leaving the site, the TO Contractor Personnel will again present the inventory list and the tools or equipment for inspection. e. Further, TO Contractor Personnel shall not violate Md. Code Ann., Criminal Law Art. Sections 9-410 through 9-417 and such other security policies of the agency that controls the facility to which the TO Contractor Personnel seeks access. 3.8.4 Information Technology

The TO Contractor must:

a. Implement Administrative, physical, and technical safeguards to protect State data that are no less rigorous than accepted industry best practices for information security such as those listed below (see Sections 3.8.4 & 3.8.5);

Updated and revised versions of the State IT Policy and Standards are available online at: [www.doit.maryland.gov](http://www.doit.maryland.gov) – keyword: Security Policy.

3.8.5 Data Protection and Controls

A. TO Contractor must ensure a secure environment for all State data and any hardware and software (including but not limited to servers, network and data components) to be provided or used in connection with the performance of the TO Agreement and must apply or cause application of appropriate controls so as to maintain such a secure environment (“Security Best Practices”). Such Security Best Practices must comply with an accepted industry standard, such as the NIST cybersecurity framework.

B. To ensure appropriate data protection safeguards are in place, the TO Contractor must implement and maintain the following controls at all times throughout the term of the TO Agreement (the TO Contractor may augment this list with additional controls):

a. Establish separate production, test, and training environments for systems supporting the services provided under this TO Agreement and ensure that production data is not replicated in test and/or training environment(s) unless it has been previously anonymized or otherwise modified to protect the confidentiality of Sensitive Data elements. The TO Contractor must ensure the
appropriate separation of production and non-production environments by applying the data protection and control requirements listed in Section 3.8.5.

b. Apply hardware and software hardening procedures as recommended by Center for Internet Security (CIS) guides [https://www.cisecurity.org/](https://www.cisecurity.org/) Security Technical Implementation Guides (STIG) [http://iase.disa.mil/Pages/index.aspx](http://iase.disa.mil/Pages/index.aspx), or similar industry best practices to reduce the TO Contractor/subcontractor’s systems’ surface of vulnerability, eliminating as many security risks as possible and documenting what is not feasible and/or not performed according to best practices. Any hardening practices not implemented must be documented with a plan of action and milestones including any compensating control. These procedures may include but are not limited to removal of unnecessary software, disabling or removing unnecessary services, removal of unnecessary usernames or logins, and the deactivation of unneeded features in the TO Contractor/subcontractor’s system configuration files.

c. Ensure that State data is not comingle with non-State data through the proper application of compartmentalization security measures.

d. Apply data encryption to protect Sensitive Data at all times, including in transit, at rest, and also when archived for backup purposes. Unless otherwise directed, the TO Contractor is responsible for the encryption of all Sensitive Data.

e. For all State data the TO Contractor manages or controls, data encryption must be applied to such data in transit over untrusted networks. Encryption algorithms which are utilized for encrypting data must comply with current Federal Information Processing Standards (FIPS), “Security Requirements for Cryptographic Modules”, FIPS PUB 140-2:

f. Enable appropriate logging parameters to monitor user access activities, authorized and failed access attempts, system exceptions, and critical information security events as recommended by the operating system and application manufacturers and information security standards, including Maryland Department of Information Technology’s Information Security Policy.

g. Retain the aforementioned logs and review them at least daily to identify suspicious or questionable activity for investigation and documentation as to their cause and remediation, if required. The State has the right to inspect these policies and procedures and the TO Contractor or subcontractor’s performance to confirm the effectiveness of these measures for the services being provided under this TO Agreement.

h. Ensure system and network environments are separated by properly configured and updated firewalls.

i. Restrict network connections between trusted and untrusted networks by physically and/or logically isolating systems from unsolicited and unauthenticated network traffic.

j. By default, “deny all” and only allow access by exception.

k. Review at least annually the aforementioned network connections, documenting and confirming the business justification for the use of all service, protocols, and ports allowed, including the rationale or compensating controls implemented for those protocols considered insecure but necessary.

l. Perform regular vulnerability testing of operating system, application, and network devices. Such testing is expected to identify outdated software versions; missing software patches; device or software misconfigurations; and to validate compliance with or deviations from the security policies applicable to this TO Agreement. TO Contractor must evaluate all identified vulnerabilities for potential adverse effect on security and integrity and remediate the
vulnerability no later than 30 days following the earlier of vulnerability’s identification or public
disclosure, or document why remediation action is unnecessary or unsuitable. The State has the
right to inspect the TO Contractor’s policies and procedures and the results of vulnerability testing
to confirm the effectiveness of these measures for the services being provided under this TO
Agreement.

m. Enforce strong user authentication and password control measures to minimize the opportunity
for unauthorized access through compromise of the user access controls. At a minimum, the
implemented measures should be consistent with the most current Maryland Department of
Information Technology’s Information Security Policy (http://doit.maryland.gov/support/Pages/SecurityPolicies.aspx), including specific requirements
for password length, complexity, history, and account lockout.

n. Ensure State Data is not processed, transferred, or stored outside of the United States (“U.S.”). The TO Contractor must provide its services to the State and the State’s end users solely from
data centers in the U.S. Unless granted an exception in writing by the State, the TO Contractor
must not allow TO Contractor Personnel to store State data on portable devices, including
personal computers, except for devices that are used and kept only at its U.S. data centers. The
TO Contractor may permit it’s TO Contractor Personnel to access State data remotely only as
required to provide technical support.

without prior written approval by the State, which may be revoked at any time for any reason.
The TO Contractor/subcontractor must complete any necessary paperwork as directed and
coordinated with the TO Agreement Monitor to obtain approval by the State to connect TO
Contractor/subcontractor-owned equipment to a State LAN/WAN.

p. Ensure that anti-virus and anti-malware software is installed and maintained on all systems
supporting the services provided under this TO Agreement; that the anti-virus and anti-malware
software is automatically updated; and that the software is configured to actively scan and detect
threats to the system for remediation. The TO Contractor must perform routine vulnerability scans
and take corrective actions for any findings.

q. Conduct regular external vulnerability testing designed to examine the service provider’s security
profile from the Internet without benefit of access to internal systems and networks behind the
external security perimeter. Evaluate all identified vulnerabilities on Internet-facing devices for
potential adverse effect on the service’s security and integrity and remediate the vulnerability
promptly or document why remediation action is unnecessary or unsuitable. The OET has the
right to inspect these policies and procedures and the performance of vulnerability testing to
confirm the effectiveness of these measures for the services being provided under this TO
Agreement.

3.8.6 Security Incident Report

A. The TO Contractor must notify the State in accordance with Section 3.8.7 when any TO Contractor
system that may access, process, or store State data or State systems experiences a Security Incident,

   Contractor communication and mitigation processes as mutually agreed upon, defined by law or
   contained in the TO Agreement.

   in the event of unauthorized release of State data or other event requiring notification, and, where
   notification is required, assume responsibility for informing all such individuals in accordance

   regulators or others required by State law; (3) a credit monitoring service required by State or

5 TASK ORDER AWARD PROCESS

5.1 OVERVIEW
The TO Contractors will be selected from among all eligible Master Contractors within the appropriate Functional Area responding to the CATS+ TORFP. In making the TO Agreement award determination, the DoIT will consider all information submitted in accordance with Section 4.

5.2 TO PROPOSAL EVALUATION CRITERIA
The following are technical criteria for evaluating a TO Proposal in descending order of importance.

A. Evidence that the Offeror has sufficient technical experience in providing the required agile consulting services in the TORFP Scope of Work.
B. The strength of the Offeror’s Staffing Management Plan and the ability for the Master Contractor to meet future Work Order needs.
C. The Offeror’s Statement of Capability evidencing that the Offeror possesses the ability to recruit and retain highly qualified, agile resources who can be engaged to support State agencies in planning and implementation of IT system development efforts.
D. The strength of the Offeror’s Communication Plan.
E. References.

5.3 SELECTION PROCEDURES
A. In the event that more than 20 proposals are received, the TO Procurement Officer may elect to exercise the following down-select process:
   1. An initial evaluation for all submitted proposals and documentation will be completed. Based on this evaluation, the Technical Proposals will be ranked highest to lowest for technical merit based on RFP Section 5.2.A and B.
   2. Offerors who submitted the top 20 technically ranked proposals will be notified of selection for oral presentations.
   3. All other Offerors will be notified of non-selection for this TORFP.
B. A subsequent technical ranking will be performed for all proposals based on the oral presentation and references. The proposals will be ranked from highest to lowest.
C. For TO Proposals deemed technically qualified, the associated TO Financial Proposal will be opened. All others will be deemed not reasonably susceptible of being selected for award and the TO Procurement Officer will notify the Master Contractor it has not been selected for award.
D. Qualified TO Financial Proposal responses will be reviewed and ranked from lowest to highest price proposed.
E. The Procurement Officer shall make a determination recommending award of TO Agreements to the ten (10) responsible Offerors who have the TO Proposals determined to be the most advantageous to the State, considering price and the evaluation criteria set forth above. In making this selection, technical merit has greater weight than financial.
F. All Master Contractors submitting a TO Proposal shall receive written notice from the TO Procurement Officer identifying the awardees.
5.4 COMMENCEMENT OF WORK UNDER A TO AGREEMENT

Commencement of work in response to a TO Agreement shall be initiated only upon:

A. Issuance of a fully executed TO Agreement
B. Non-Disclosure Agreement (TO Contractor)
C. Purchase Order
D. Issuance of a Notice to Proceed authorized by the TO Procurement Officer
E. Proof of insurance (see Section 3.12)

The Living Wage generally applies to a Contractor or subcontractor who performs work on a State contract for services that is valued at $100,000 or more. An employee is subject to the Living Wage if he/she is at least 18 years old or will turn 18 during the duration of the contract, works at least 13 consecutive weeks on the State Contract and spends at least one-half of the employee’s time during any work week on the State Contract.

   - (d) Services between a Unit and a County or Baltimore City.

### C. If the Unit responsible for the State contract for services determines that application of the Living Wage would conflict with any applicable Federal program, the Living Wage does not apply to the contract or program.

### D. A Contractor must not split or subdivide a State contract for services, pay an employee through a third party, or treat an employee as an independent Contractor or assign work to employees to avoid the imposition of any of the requirements of Md. Code Ann., State Finance and Procurement Article, Title 18.

### E. Each Contractor/subcontractor, subject to the Living Wage Law, shall post in a prominent and easily accessible place at the work site(s) of covered employees a notice of the Living Wage Rates, employee rights under the law, and the name, address, and telephone number of the Commissioner.

### F. The Commissioner shall adjust the wage rates by the annual average increase or decrease, if any, in the Consumer Price Index for all urban consumers for the Washington/Baltimore metropolitan area, or any
successor index, for the previous calendar year, no later than 90 days after the start of each fiscal year. The Commissioner shall publish any adjustments to the wage rates on the Division of Labor and Industry’s website. An employer subject to the Living Wage Law must comply with the rate requirements during the initial term of the contract and all subsequent renewal periods, including any increases in the wage rate, required by the Commissioner, automatically upon the effective date of the revised wage rate.

Code Ann., State Finance and Procurement Article, §18-103(a), by no more than 50 cents of the hourly cost of the employer’s contribution to an employee’s deferred compensation plan. A Contractor/subcontractor who reduces the wages paid to an employee based on the employer’s contribution to an employee’s deferred compensation plan shall not lower the employee’s wage rate below the minimum wage as set in Md. Code Ann., Labor and Employment Article, §3-413.

I. Under Md. Code Ann., State Finance and Procurement Article, Title 18, if the Commissioner determines that the Contractor/subcontractor violated a provision of this title or regulations of the Commissioner, the Contractor/subcontractor shall pay restitution to each affected employee, and the State may assess liquidated damages of $20 per day for each employee paid less than the Living Wage.

J. Information pertaining to reporting obligations may be found by going to the Division of Labor and Industry website http://www.dllr.state.md.us/labor/prev/livingwage.shtml and clicking on Living Wage for State Service Contracts.

RECITALS

WHEREAS, the TO Contractor has been awarded a contract (the "TO Agreement") following the solicitation for Delivery Project Management Office Services, Solicitation #F50B0600045 and

NOW, THEREFORE, in consideration of being given access to the Confidential Information in connection with the solicitation and the TO Agreement, and for other good and valuable consideration, the receipt and sufficiency of which the parties acknowledge the parties do hereby agree as follows:

1. Regardless of the form, format, or media on or in which the Confidential Information is provided and regardless of whether any such Confidential Information is marked as such, “Confidential Information” means (1) any and all information provided by or made available by the State to the TO Contractor in connection with the TO Agreement and (2) any and all personally identifiable information (PII) (including but not limited to personal information as defined in Md. TO Contractor shall provide copies of such agreements to the State. The names of such personnel are attached hereto and made a part hereof as Attachment I-2. TO Contractor shall update Attachment I-2 by adding additional names (whether TO Contractor’s Personnel or a subcontractor’s personnel) as needed, from time to time.

3. The State may grant, deny, or condition any such consent, as it may deem appropriate in its sole and absolute subjective discretion.

4. The TO Contractor hereby agrees to hold the Confidential Information in trust and in strictest confidence, adopt or establish operating procedures and physical security measures, and take all other measures necessary to protect the Confidential Information from inadvertent release or disclosure to unauthorized third parties and to prevent all or any portion of the Confidential Information from falling into the public domain or into the possession of persons not bound to maintain the confidentiality of the Confidential Information.

6. The TO Contractor shall, at its own expense, return to the Department all Confidential Information in its care, custody, control or possession upon request of the Department or on termination of the TO Agreement.

7. A breach of this Agreement by the TO Contractor or the TO Contractor’s Personnel shall constitute a breach of the TO Agreement between the TO Contractor and the State.

8. TO Contractor acknowledges that any failure by the TO Contractor or the TO Contractor’s Personnel to abide by the terms and conditions of use of the Confidential Information may cause irreparable harm to the State and that monetary damages may be inadequate to compensate the State for such breach. Accordingly, the TO Contractor agrees that the State may obtain an injunction to prevent the disclosure, copying or improper use of the Confidential Information. The TO Contractor consents to personal jurisdiction in the Maryland State Courts. The State’s rights and remedies hereunder are cumulative and the State expressly reserves any and all rights, remedies, claims and actions that it may have now or in the future to protect the Confidential Information and seek damages from the TO Contractor and the TO Contractor’s Personnel for a failure to comply with the requirements of this Agreement. In the event the State suffers any losses, damages, liabilities, expenses, or costs (including, by way of example only, attorneys’ fees and disbursements) that are attributable, in whole or in part to any failure by the TO Contractor or any of the TO Contractor’s Personnel to comply with the requirements of this Agreement, the TO Contractor shall hold harmless and indemnify the State from and against any such losses, damages, liabilities, expenses, and costs.

9. The parties further agree that:
   a. This Agreement shall be governed by the laws of the State of Maryland;
   b. The rights and obligations of the TO Contractor under this Agreement may not be assigned or delegated, by operation of law or otherwise, without the prior written consent of the State;
   c. The State makes no representations or warranties as to the accuracy or completeness of any Confidential Information;
   d. The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement;
   e. Signatures exchanged by facsimile are effective for all purposes hereunder to the same extent as original signatures;
   f. The Recitals are not merely prefatory but are an integral part hereof; and

   2.2 The TO Contractor shall, in full satisfaction of the specific requirements of this TO Agreement, provide the services pursuant to Work Orders issued to it under the CATS+ TORFP. These services shall be provided in accordance with the Master Contract, this TO Agreement, and the following Exhibits, which are attached and incorporated herein by reference. If there is any conflict among the Master Contract, this TO Agreement, and these Exhibits, the terms of the Master Contract shall govern. If there is any conflict between this TO Agreement and any of these Exhibits, the following order of precedence shall determine the prevailing provision:

   The TO Agreement,
   Exhibit A – CATS+ TORFP

4.3 Each invoice for services rendered must include the TO Contractor’s Federal Tax Identification Number which is _______________. 4.4 In addition to any other available remedies, if, in the opinion of the TO Procurement Officer, the TO Contractor fails to perform in a satisfactory and timely manner, the TO Procurement Officer may refuse or limit approval of any invoice for payment, and may cause payments to the TO Contractor to be reduced or withheld until such time as the TO Contractor meets performance standards as established by the TO Procurement Officer.

4.5 Liquidated Damages for MBE

1. The TO Agreement requires the Master Contractor to comply in good faith with the MBE Program and TO Agreement provisions. The State and the TO Contractor acknowledge and agree that the State will incur damages, including but not limited to loss of goodwill, detrimental impact on economic development, and diversion of internal staff resources, if the TO Contractor does not comply in good faith with the requirements of the MBE Program and MBE TO Agreement provisions. The parties further acknowledge and agree that the damages the State might reasonably be anticipated to accrue as a result of such lack of compliance are difficult to ascertain with precision.

2. Therefore, upon issuance of a written determination by the State that the TO Contractor failed to comply in good faith with one or more of the specified MBE Program requirements or MBE TO Agreement provisions, the TO Contractor shall pay liquidated damages to the State at the rates set forth below. The TO Contractor expressly agrees that the State may withhold payment on any invoices as a set-off against liquidated damages owed. The TO Contractor further agrees that for each specified violation, the agreed upon liquidated damages are reasonably proximate to the loss the State is anticipated to incur as a result of such violation.

(a) Failure to submit each monthly payment report in full compliance with COMAR 21.11.03.13B (3): $26.00 per day until the monthly report is submitted as required.

(d) Failure to meet the Master Contractor’s total MBE participation goal and sub goal commitments: the difference between the dollar value of the total MBE participation commitment on the MBE participation schedule and the MBE participation actually achieved.

(e) Failure to promptly pay all undisputed amounts to an MBE subcontractor in full compliance with the prompt payment provisions of the Contract: $99.00 per day until the undisputed amount due to the MBE subcontractor is paid.

3. Notwithstanding the assessment or availability of liquidated damages, the State reserves the right to terminate the Task Order and exercise any and all other rights or remedies, which may be available under the Task Order or Law.

SIGNATURES ON NEXT PAGE
IN WITNESS THEREOF, the parties have executed this TO Agreement as of the date hereinabove set forth.
