- Business Analyst (1)
- System Architect (1) (one (1) available as of NTP)
- Database Administrator (1) (one (1) available as of NTP)
- Database Analyst (1)
- GIS Specialist (1) (one (1) available as of NTP)
- Geospatial Web Developer Senior (1)
- Geospatial Web Developer (1)

SHA intends to award this Task Order to one (1) Master Contractor that proposes a team of resources and a Staffing Plan that can best satisfy the TO requirements.

2.2 REQUESTING AGENCY BACKGROUND
The State Highway Administration is responsible for all interstates, U.S. and Maryland numbered routes excluding those in Baltimore City and toll facility maintained highways. The state system includes approximately 6,000 centerline miles, (16,064 lane miles) of highways and 2,400 bridges, connecting all regions of the state. The State Highway Administration Business Plan is available online at: www.roads.maryland.gov/oc/shabusinessetnl.pdf

2.3 PROJECT BACKGROUND
The Maryland State Highway Administration (SHA) is responsible for maintaining a statewide road centerline dataset containing linear referencing route and measure information and an inventory of roadway characteristics. This dataset is mandated to satisfy Federal Highway Administration (FHWA) Highway Performance Monitoring System (HPMS) reporting requirements. HPMS is the Federal government official source of data on the extent, condition, performance, use and operating characteristics of the nation's highways.
Each year, FHWA requires each state to submit an inventory of publicly maintained roads, including accurate mileage, lane mileage and travel information. This data is used in the apportionment of Federal-Aid Highway Funds to the states. SHA collects and maintains this data for state maintained roads and relies on local jurisdictions to report major improvements for local government maintained roads. Through the SHA Local Road Improvement Process, local government agencies in Maryland are required to submit information to SHA regarding major changes or additions to local roadways and an updated certification of local road mileage.

As a result of the Federal surface transportation funding program, the Moving Ahead for Progress in the 21st Century Act (Map-21), which was signed into law in October 2012, beginning in June 2014, states are required to include dual carriageways and all publicly maintained roads as part of their HPMS Submission. This new requirement is driving SHA to expand current business process and to coordinate closely with Maryland's local jurisdictions.

SHA is looking to transition their current in-house systems for managing and maintaining centerline information and linear referencing system to leverage the expanded capabilities and enhancements offered by ESRI's Roads and Highways software. ESRI's Roads and Highways suite offers tools to update existing internal workflows and implement new processes to work effectively and efficiently with local partners.

2.4 PROFESSIONAL DEVELOPMENT

The TO Contractor shall ensure continuing education opportunities for the personnel provided to support this TORFP. Further, any IT services personnel obtained under this TORFP shall maintain any required professional certifications for the duration of the resulting TO.

Technology and software products continuously change. The TO Contractor shall ensure continuing education opportunities for the personnel provided. This education shall be associated with the technologies currently utilized by SHA or adopted to be implemented by SHA in the near future. All costs, including, but not limited to, the actual course costs and course attendance time are the responsibility of the TO Contractor. SHA will not cover any costs associated with the professional development of the TO Contractor personnel. The TO Contractor shall submit a Professional Development Plan that identifies both annual training course allotments as well as annual training time allotments for each resource proposed.

In addition to the TO Contractor resource professional development training, each TO Contractor resource assigned to work on-site at an SHA facility and or SHA project site, for a period of three months or longer, regardless of the number of days worked per week, shall be required to take the following four (4) MANDATORY TRAINING COURSES given to all SHA employees and on-site TO Contractors:

- ADA Awareness;
- Limited English Proficiency;
- Sexual Harassment Awareness; and
- Workplace and Domestic Violence Awareness
This MANDATORY TRAINING shall be completed prior to the on-site TO Contractor resource’s start date at the SHA facility (and/or project site). Failure to complete this training prior to the resources start date could be grounds for termination.

Each on-site TO Contractor resource shall be required to certify that training was completed. There will be a certificate of completion available at the end of each training course. The on-site TO Contractor resource shall print the certificate and give a copy to the TO Manager as record of completion. The on-site TO Contractor resource shall also forward a copy of the training certificates to the TO Contractor for contract management records.

The TO Contractor cannot bill the hours required for its resources to complete this MANDATORY TRAINING. The hours estimated to complete all four (4) training courses is approximately 8 hours and will be available on-line from SHA’s Internet Web site. There will be no cost for materials or the training course itself.

With Maryland State Highway Administration prior approval, the time allocated to these continuing education activities for staff deployed to Maryland State Highway Administration on a full-time basis may not be charged to this task order. Actual course costs, travel, and related expenses are the responsibility of the TO Contractor. Eligible continuing education shall be associated with technologies currently used or anticipated for use by Maryland State Highway Administration in the near future.

2.5 REQUIRED POLICIES, GUIDELINES AND METHODOLOGIES

The TO Contractor shall comply with all applicable laws, regulations, policies, standards, and guidelines affecting information technology and technology projects, which may be created or changed periodically.

The TO Contractor shall adhere to and remain abreast of current, new, and revised laws, regulations, policies, standards and guidelines affecting security and technology project execution.

The foregoing may include, but are not limited to, the following policies, guidelines and methodologies that can be found at the DoIT site (http://doit.maryland.gov/policies/Pages/ContractPolicies.aspx).

- The State of Maryland System Development Life Cycle (SDLC) methodology
- The State of Maryland Information Technology Security Policy and Standards
- The State of Maryland Information Technology Non-Visual Access Standards
- The TO Contractor shall follow project management methodologies consistent with the Project Management Institute’s Project Management Body of Knowledge Guide.
- TO Contractor assigned personnel shall follow a consistent methodology for all TO activities.
- The State’s Information Technology Project Oversight Policies for any work performed under this TORFP for one or more Major IT Development Projects (MITDPs)

2.6 REQUIREMENTS

2.6.1 TRANSITION-IN REQUIREMENTS

At Notice to Proceed the TO Contractor and the SHA Project Management team will conduct a kick-off meeting to review the scope of work, staffing plan, deliverables, and communication plan.
2.6.2 TRANSITION-OUT REQUIREMENTS

If the TO Contractor does not receive any follow-on work at the end of this Task Order, the team will provide updated documentation which includes but is not limited to system documentation, design documentation, source code and outstanding issues and tasks.

2.6.3 FUNCTIONAL / BUSINESS REQUIREMENTS

Functional requirements relate to what business processes shall be provided or supported under the TO.

2.6.3.1 Phase 1- Begin Year 1- Estimated completion time: 1.5-2 years

Phase 1 requires functional implementation of ESRI Roads and Highways Desktop for internal SHA linear reference method (LRM) and road inventory data management, as well as HPMS reporting. This phase includes a review of existing SHA systems and methods for managing the existing LRM and data collection/management processes, and preparation of HPMS reports. Recommendations for enhancements to existing methods and processes will be provided for SHA to increase efficiency and leverage new techniques provided in ESRI Roads and Highways. Functional requirements, LRS data and system integration requirements, and system requirements will be determined. An implementation plan and project schedule will be created. A physical database design leveraging the ESRI Roads and Highways database will be created. Configurations to ESRI Roads and Highways will be made to accommodate required SHA workflows, including rule-based location management. Data will be migrated from existing SHA data repositories, and scripts created for migration as needed. Quality control and workflow management tools will be defined and implemented to assess data quality and track job status. SHA staff will be adequately trained on use of the new system for editing and maintaining the new linear referencing system (LRS) and roadway inventory data, and submitting annual HPMS reports. There will be an initial rollout for testing. Identified bugs or issues will be addressed before a final rollout to production in the SHA environment. Documentation and system support will be provided.

2.6.3.2 Phase 2 – Begin Year 1- Estimated completion time: 2-2.5 years

Phase 2 results in functional implementation of ESRI Roads and Highways Server and Roadway Characteristics Editor (RCE) for data updates and interaction with local Maryland jurisdictions. RCE would be housed by SHA and made accessible for all local Maryland jurisdictions to utilize for their Local Road Improvement submissions. This phase will include a review of existing local road improvements reporting processes. Recommendations for enhancements to existing methods and processes will be provided for SHA to increase efficiency and leverage new techniques provided in ESRI Roads and Highways. In addition, this phase will include an evaluation of existing centerlines datasets and centerline use cases in Maryland’s local jurisdictions (23 Maryland counties and Baltimore City), and offer recommendations for SHA and local jurisdictions to maintain one, seamless, authoritative-based centerline in a collaborative environment to support these use cases. Functional requirements, data conflation requirements, LRS data and system integration requirements, and system requirements will be determined for data submission and certification from local jurisdictions, and data verification, updates and QA/QC by SHA. An implementation plan and project schedule will be created. Configurations to ESRI Roads and Highways will be made to accommodate required workflows. Quality control and workflow management tools will be defined and implemented to assess data quality and track job status. SHA staff will be adequately trained on use of the new system.
for editing and integrating updates from local jurisdictions to the ESRI Roads and Highways linear referencing system (LRS) and roadway inventory data. SHA staff and local Maryland jurisdiction staff will also be trained on use of the new system for updating editing and updating business data tied to the ESRI Roads and Highways linear referencing system. There will be an initial rollout for testing. Identified bugs or issues will be addressed before a final rollout to production in the SHA environment. Documentation and system support will be provided.

2.6.3.3 Phase 3 – Begin Year 3 - Estimated completion time: 1 year

Phase 3 results in further configuration and in-depth customization of ESRI Roads and Highways to include other desired functionality. This phase will include creation of additional tools, including data access and viewing tools, reporting tools and straight-line diagramming tools. Functional and system requirements will be determined for these tools. An implementation plan and project schedule will be created. Configurations to ESRI Roads and Highways will be made to accommodate required workflows. Quality control and workflow management tools will be defined and implemented to assess data quality and track job status. SHA staff will be adequately trained on use of the new tools. There will be an initial rollout for testing. Identified bugs or issues will be addressed before a final rollout to production in the SHA environment. Documentation and production system support will be provided.

Provide an overall team organizational chart with all team resources available to fulfill the TO scope of work.

G) Master Contractor and Subcontractor Experience and Capabilities

1) Provide up to three examples of engagements or contracts the Master Contractor has completed that were similar to Section 2 - Scope of Work. Include contact information for each client organization complete with the following:
a) Name of organization.
b) Point of contact name, title, e-mail and telephone number (point of contact shall be accessible and knowledgeable regarding experience)
c) Services provided as they relate to Section 2 - Scope of Work.
d) Start and end dates for each example engagement or contract.
e) Current Master Contractor team personnel who participated on the engagement.

For each identified contract, the Master Contractor shall provide the following (if not already provided in sub paragraph 1 above):

a) Contract or task order name
b) Name of organization.
c) Point of contact name, title, e-mail, and telephone number (point of contact shall be accessible and knowledgeable regarding experience)
d) Start and end dates for each engagement or contract. If the Master Contractor is no longer providing the services, explain why not.
e) Dollar value of the contract.
f) Indicate if the contract was terminated before the original expiration date.
g) Indicate if any renewal options were not exercised.

Note - State of Maryland experience can be included as part of Section 2 above as engagement or contract experience. State of Maryland experience is neither required nor given more weight in proposal evaluations.

H) State Assistance

Provide an estimate of expectation concerning participation by State personnel.

I) Confidentiality

A Master Contractor should give specific attention to the identification of those portions of its proposal that it considers confidential, proprietary commercial information or trade secrets, and provide justification why such materials, upon request, should not be disclosed by the State under the Public Information Act, Title 4, of the General Provisions Article of the Annotated Code of Maryland. Master Contractors are advised that, upon request for this information from a third party, the TO Procurement Officer will be required to make an independent determination regarding whether the information may be disclosed.

J) Proposed Facility

Identify Master Contractor’s facilities, including address, from which any work will be performed.
3.4.2 TO FINANCIAL PROPOSAL

A. A description of any assumptions on which the Master Contractor’s TO Financial Proposal is based (Assumptions shall not constitute conditions, contingencies, or exceptions to the price proposal);

B. Attachment 1– Price Proposal, completed in .PDF format shall be contained in one e-mail containing as attachments all submission documents detailed in Section 3.2.1 with password protection. The TO Procurement Officer will contact Offerors for the password to open each file. Each file shall be encrypted with the same password. Master Contractors shall list all proposed resources by approved CATS+ labor categories including all fully loaded labor rates in the price proposal. Prices shall be valid for 120 days.

C. To be responsive to this TORFP, the Price Proposal (Attachment 1) shall provide labor rates for all labor categories. Proposed rates are not to exceed the rates defined in the Master Contract for the Master Contract year(s) in effect at the time of the TO Proposal due date.

Note: Failure to specify a CATS+ labor category in the completed Price Sheet for each proposed resource will make the TO proposal non-responsive to this TORFP.

SECTION 4 - TASK ORDER AWARD PROCESS

4.1 OVERVIEW
The TO Contractor will be selected from among all eligible Master Contractors within the appropriate Functional Area responding to the CATS+ TORFP. In making the TO Agreement award determination, the TO Requesting Agency will consider all information submitted in accordance with Section 3.

4.2 TO PROPOSAL EVALUATION CRITERIA
The following are technical criteria for evaluating a TO Proposal in descending order of importance. Failure to meet the minimum company personnel qualifications shall render a TO Proposal not reasonably susceptible for award:

   A. The overall experience, capability and references for the Master Contractor as described in the Master Contractor’s TO Technical Proposal.

   B. More weight will be given to companies experience in implementing ESRI Roads and Highways at a State Department of Transportation.

   C. The capability of the proposed resources to perform the required tasks and produce the required deliverables in the TORFP Scope of Work – Section 2. Capability will be determined from each proposed individual’s Attachment 5 – Labor Category Personnel Resume Summary, reference checks, and oral presentation (See Section 1.5 Oral Presentations/Interviews).

   D. The Master Contractor’s overall understanding of the TORFP Scope of Work – Section 2. Level of understanding will be determined by the quality and accuracy of the technical proposal in adherence with Section 3.4.

   E. The ability for the Master Contractor to meet staffing expectations relative to supplying additional personnel for this TORFP meeting qualifications in Section 2.9 and 2.10.

   F. Demonstration of how the Master Contractor plans to staff the task order at the levels set forth in Section 2.1 and also for potential future resource requests.

4.3 SELECTION PROCEDURES

   A. TO Proposals will be assessed throughout the evaluation process for compliance with the minimum qualifications listed in Section 2 of this TORFP, and quality of responses to Section 3.4.1 TO Technical Proposal.

   B. Interviews will be performed for proposed personnel from all TO Proposals deemed technically qualified.

   C. For TO Proposals deemed technically qualified, the associated TO Financial Proposal will be opened. All others will be deemed not reasonably susceptible for award and the TO Procurement Officer will notify the Master Contractor it has not been selected to perform the work.

   D. For TO Proposals submitted via e-mail, SHA will contact Offerors for the password to access TO Financial Proposal data. The TO Procurement Officer will only contact those Offerors...
with TO Proposals that are reasonably susceptible for award. Offerors that are unable to provide a password that opens the TO Financial Proposal documents will be deemed not susceptible for award. Subsequent submissions of financial content will not be allowed.

E. Qualified TO Financial Proposal responses will be reviewed and ranked from lowest to highest price proposed.

F. The most advantageous TO Proposal considering both the technical and financial submissions shall be selected for TO award. In making this selection, technical submission has greater weight.

G. All Master Contractors submitting a TO Proposal shall receive written notice from the TO Procurement Officer identifying the awardee.

4.4 COMMENCEMENT OF WORK UNDER A TO AGREEMENT

Commencement of work in response to a TO Agreement shall be initiated only upon issuance of a fully executed TO Agreement, a Non-Disclosure Agreement (To Contractor), a Purchase Order, and by a Notice to Proceed authorized by the TO Procurement Officer. See Attachment 7 - Notice to Proceed (sample).

MDOT DBE FORM A
FEDERALLY-FUNDED CONTRACTS
CERTIFIED DBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT

PAGE 1 OF 2

This affidavit must be included with the bid/proposal. If the bidder/offeror fails to accurately complete and submit this affidavit as required, the bid shall be deemed not responsive or the proposal shall be deemed not susceptible of being selected for award.

In connection with the bid/proposal submitted in response to Solicitation No. , I affirm the following:

1. DBE Participation (PLEASE CHECK ONLY ONE)

☐ I have met the overall certified Disadvantaged Business Enterprise (DBE) participation goal of percent (%). I agree that this percentage of the total dollar amount of the Contract for the DBE goal will be performed by certified DBE firms as set forth in the DBE Participation Schedule - Part 2 of the MDOT DBE Form B (Federally-Funded Contracts).

OR

☐ I conclude that I am unable to achieve the DBE participation goal. I hereby request a waiver, in whole or in part, of the goal. Within 10 business days of receiving notice that our firm is the apparent awardee or as requested by the Procurement Officer, I will submit a written waiver request and all required documentation in accordance with COMAR 21.11.03.11. For a partial waiver request, I agree that certified DBE firms will be used to accomplish the percentages of the total dollar amount of the Contract as set forth in the DBE Participation Schedule - Part 2 of the MDOT DBE Form B (Federally-Funded Contracts).

2. Additional DBE Documentation

I understand that if I am notified that I am the apparent awardee or as requested by the Procurement Officer, I must submit the following documentation within 10 business days of receiving such notice:
(a) Outreach Efforts Compliance Statement (MDOT DBE Form C - Federally-Funded Contracts);
(b) Subcontractor Project Participation Statement (MDOT DBE Form D - Federally-Funded Contracts);
(c) DBE Waiver Request documentation per COMAR 21.11.03.11 (if waiver was requested); and
(d) Any other documentation required by the Procurement Officer to ascertain bidder’s responsibility/offeror’s susceptibility of being selected for award in connection with the certified DBE participation goal.

I acknowledge that if I fail to return each completed document (in 2 (a) through (d)) within the required time, the Procurement Officer may determine that I am not responsible and therefore not eligible for contract award or not susceptible of being selected for award.
3. Information Provided to DBE firms

In the solicitation of subcontract quotations or offers, DBE firms were provided not less than the same information and amount of time to respond as were non-DBE firms.

4. Products and Services Provided by DBE firms

I hereby affirm that the DBEs are only providing those products and services for which they are MDOT certified.

I solemnly affirm under the penalties of perjury that the information in this affidavit is true to the best of my knowledge, information and belief.

1. Please refer to the Maryland Department of Transportation (MDOT) DBE Directory at [www.mdot.state.md.us](http://www.mdot.state.md.us) to determine if a firm is certified for the appropriate North American Industry Classification System ("NAICS") Code and the product/services description (specific product that a firm is certified to provide or specific areas of work that a firm is certified to perform). For more general information about NAICS, please visit [www.naics.com](http://www.naics.com). Only those specific products and/or services for which a firm is certified in the MDOT Directory can be used for purposes of achieving the DBE participation goal.

2. In order to be counted for purposes of achieving the DBE participation goal, the firm must be certified for that specific NAICS ("DBE" for Federally-funded projects designation after NAICS Code). **WARNING:** If the firm’s NAICS Code is in graduated status, such services/products will not be counted for purposes of achieving the DBE participation goals. Graduated status is clearly identified in the MDOT Directory (such graduated codes are designated with the word graduated after the appropriate NAICS Code).

3. Examining the NAICS Code is the first step in determining whether a DBE firm is certified and eligible to receive DBE participation credit for the specific products/services to be supplied or performed under the contract. The second step is to determine whether a firm’s Products/Services Description in the DBE Directory includes the products to be supplied and/or services to be performed that are being used to achieve the DBE participation goal.

4. If you have any questions as to whether a firm is MDOT DBE certified, or if it is certified to perform specific services or provide specific products, please call MDOT’s Office of Disadvantaged Business Enterprise at 1-800-544-6056 or send an email to MBE@mdot.state.md.us.

5. The Contractor’s subcontractors are considered second-tier subcontractors. Third-tier contracting used to meet a DBE goal is to be considered the exception and not the rule. The following two conditions must be met before MDOT, its Modal Administrations and the Maryland Transportation Authority may approve a third-tier contracting agreement: (a) the bidder/offeror must request in writing approval of each third-tier contract arrangement, and (b) the request must contain specifics as to why a third-tier contracting arrangement should be approved. These documents must be submitted with the bid/proposal in Part 2 of this DBE Participation Schedule.

6. For each DBE firm that is being used as supplier/wholesaler/regular dealer/broker/manufacturer, please follow these instructions for calculating the amount of the subcontract for purposes of achieving the DBE participation goal:

   A. Is the firm certified as a broker of the products/supplies? If the answer is YES, please continue to Item C. If the answer is NO, please continue to Item B.

   B. Is the firm certified as a supplier, wholesaler, regular dealer, or manufacturer of such products/supplies? If the answer is YES, continue to Item D. If the answer is NO, continue to Item C only if the DBE firm is certified to perform trucking/hauling services under NAICS Codes 484110, 484121, 484122, 484210, 484220 and 484230. If the answer is NO and the firm is not certified under these NAICS Codes, then no DBE participation credit will be given for the supply of these products.

   C. For purposes of achieving the DBE participation goal, you may count only the amount of any reasonable fee that the DBE firm will receive for the provision of such products/supplies - not the total subcontract amount or the value (or a percentage thereof) of such products and/or supplies. For Column 3 of the DBE Participation Schedule, please divide the amount of any reasonable fee that the DBE firm will receive for the provision of such products/services by the total Contract value and insert the percentage in Line 3.1.
D. Is the firm certified as a manufacturer (refer to the firm's NAICS Code and specific description of products/services) of the products/supplies to be provided? If the answer is NO, please continue to Item E. If the answer is YES, for purposes of achieving the DBE participation goal, you may count the total amount of the subcontract. For Column 3 of the DBE Participation Schedule, please divide the total amount of the subcontract by the total Contract value and insert the percentage in Line 3.1.

E. Is the firm certified as a supplier, wholesaler and/or regular dealer? If the answer is YES and the DBE firm is furnishing and installing the materials and is certified to perform these services, please divide the total subcontract amount (including full value of supplies) by the total Contract value and insert the percentage in Line 3.1. If the answer is YES and the DBE firm is only being used as a supplier, wholesaler and/or regular dealer or is not certified to install the supplies/materials, for purposes of achieving the DBE participation goal, you may only count sixty percent (60%) of the value of the subcontract for these supplies/products (60% Rule). To apply the 60% Rule, first divide the amount of the subcontract for these supplies/products only (not installation) by the total Contract value. Then, multiply the result by sixty percent (60%) and insert the percentage in Line 3.2.

7. For each DBE firm that is not being used as a supplier/wholesaler/regular dealer/broker/manufacturer, to calculate the amount of the subcontract for purposes of achieving the DBE participation goal, divide the total amount of the subcontract by the total Contract value and insert the percentage in Line 3.1.

Example: $2,500 (Total Subcontract Amount) ÷ $10,000 (Total Contract Value) x 100 = 25%

8. Please note that for USDOT-funded projects, a DBE prime may count towards its DBE participation goal work performed by its own forces. Include information about the DBE prime in Part 2.

9. **WARNING:** The percentage of DBE participation, computed using the dollar amounts in Column 3 for all of the DBE firms listed in Part 2, MUST at least equal the DBE participation goal as set forth in MDOT DBE Form A – Federally-Funded Contracts for this solicitation. If the bidder/offeror is unable to achieve the DBE participation goals, then the bidder/offeror must request a waiver in Form A or the bid will be deemed not responsive, or the proposal not susceptible of being selected for award. You may wish to use the Goal Worksheet shown below to assist you in calculating the percentage and confirming that you have met the applicable DBE participation goal.

**GOAL WORKSHEET**

| Total DBE Firm Participation (Add percentages in Column 3 for all DBE firms listed in DBE Participation Schedule) | (A) ________________% |
| The percentage amount in Box A above should be equal to the percentage amount in Box E below. |
| Add Countable Subcontract Amounts (see 6 through 8 of Instructions) for all DBE firms listed in DBE Participation Schedule, and insert in Box B | (B) $__________________ |
| Insert the Total Contract Amount in Box C | (C) $__________________ |
| Divide Box B by Box C and Insert in Box D | (D) =__________________ |
| Multiply Box D by 100 and insert in Box E | (E) =__________________% |

☐ Please check if Continuation Sheets are attached.
I hereby affirm that I have reviewed the Products and Services Description (specific product that a firm is certified to provide or areas of work that a firm is certified to perform) set forth in the MDOT DBE Directory for each of the DBE firms listed in Part 2 of this DBE Form B for purposes of achieving the DBE participation goal that was identified in the DBE Form A that I submitted with this solicitation, and that the DBE firms listed are only performing those products/services/areas of work for which they are certified. I also hereby affirm that I have read and understand the form instructions set forth in Part 1 of this DBE Form B.

The undersigned Prime Contractor hereby certifies and agrees that it has fully complied with the State Minority Business Enterprise law, State Finance and Procurement Article §14-308(a)(2), Annotated Code of Maryland which provides that, except as otherwise provided by law, a contractor may not identify a certified Disadvantaged business enterprise in a bid or proposal and:

(1) fail to request, receive, or otherwise obtain authorization from the certified Disadvantaged business enterprise to identify the certified Disadvantaged business enterprise in its bid or proposal;

(2) fail to notify the certified Disadvantaged business enterprise before execution of the contract of its inclusion of the bid or proposal;

(3) fail to use the certified Disadvantaged business enterprise in the performance of the contract; or

(4) pay the certified Disadvantaged business enterprise solely for the use of its name in the bid or proposal.

State of Maryland- Maryland State Highway Administration
PART 1 – GUIDANCE FOR DEMONSTRATING GOOD FAITH EFFORTS TO MEET MBE/DBE PARTICIPATION GOALS

In order to show that it has made good faith efforts to meet the Minority Business Enterprise (MBE)/Disadvantaged Business Enterprise (DBE) participation goal (including any MBE subgoals) on a contract, the bidder/offeror must either (1) meet the MBE/DBE Goal(s) and document its commitments for participation of MBE/DBE Firms, or (2) when it does not meet the MBE/DBE Goal(s), document its Good Faith Efforts to meet the goal(s).

I. Definitions

MBE/DBE Goal(s) – “MBE/DBE Goal(s)” refers to the MBE participation goal and MBE participation subgoal(s) on a State-funded procurement and the DBE participation goal on a federally-funded procurement.

Good Faith Efforts – The “Good Faith Efforts” requirement means that when requesting a waiver, the bidder/offeror must demonstrate that it took all necessary and reasonable steps to achieve the MBE/DBE Goal(s), which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient MBE/DBE participation, even if those steps were not fully successful. Whether a bidder/offeror that requests a waiver made adequate good faith efforts will be determined by considering the quality, quantity, and intensity of the different kinds of efforts that the bidder/offeror has made. The efforts employed by the bidder/offeror should be those that one could reasonably expect a bidder/offeror to take if the bidder/offeror were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not good faith efforts to meet the DBE contract requirements. The determination concerning the sufficiency of the bidder's/offeror's good faith efforts is a judgment call; meeting quantitative formulas is not required.

Identified Firms – “Identified Firms” means a list of the DBEs identified by the procuring agency during the goal setting process and listed in the federally-funded procurement as available to perform the Identified Items of Work. It also may include additional DBEs identified by the bidder/offeror as available to perform the Identified Items of Work, such as DBEs certified or granted an expansion of services after the procurement was issued. If the procurement does not include a list of Identified Firms or is a State-funded procurement, this term refers to all of the MBE Firms (if State-funded) or DBE Firms (if federally-funded) the bidder/offeror identified as available to perform the Identified Items of Work and should include all appropriately certified firms that are reasonably identifiable.

Identified Items of Work – “Identified Items of Work” means the bid items identified by the procuring agency during the goal setting process and listed in the procurement as possible items of work for performance by MBE/DBE Firms. It also may include additional portions of items of work the bidder/offeror identified for performance by MBE/DBE Firms to increase the likelihood that the MBE/DBE Goal(s) will be achieved. If the procurement does not include a list of Identified Items of Work, this term refers to all of the items of work the bidder/offeror identified as possible items of work for performance by MBE/DBE Firms and should include all reasonably identifiable work opportunities.

MBE/DBE Firms – For State-funded contracts, “MBE/DBE Firms” refers to certified MBE Firms. Certified MBE Firms can participate in the State’s MBE Program. For federally-funded contracts, “MBE/DBE Firms” refers to certified DBE Firms. Certified DBE Firms can participate in the federal DBE Program.
II. Types of Actions MDOT will Consider

The bidder/offeror is responsible for making relevant portions of the work available to MBE/DBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available MBE/DBE subcontractors and suppliers, so as to facilitate MBE/DBE participation. The following is a list of types of actions MDOT will consider as part of the bidder's/offeror's Good Faith Efforts when the bidder/offeror fails to meet the MBE/DBE Goal(s). This list is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

A. Identify Bid Items as Work for MBE/DBE Firms

1. Identified Items of Work in Procurements

   (a) Certain procurements will include a list of bid items identified during the goal setting process as possible work for performance by MBE/DBE Firms. If the procurement provides a list of Identified Items of Work, the bidder/offeror shall make all reasonable efforts to solicit quotes from MBE Firms or DBE Firms, whichever is appropriate, to perform that work.

   (b) Bidders/Offerors may, and are encouraged to, select additional items of work to be performed by MBE/DBE Firms to increase the likelihood that the MBE/DBE Goal(s) will be achieved.

2. Identified Items of Work by Bidders/Offerors

   (a) When the procurement does not include a list of Identified Items of Work, bidders/offerors should reasonably identify sufficient items of work to be performed by MBE/DBE Firms.

   (b) Where appropriate, bidders/offerors should break out contract work items into economically feasible units to facilitate MBE/DBE participation, rather than perform these work items with their own forces. The ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder/offeror of the responsibility to make Good Faith Efforts.

B. Identify MBE Firms or DBE Firms to Solicit

1. DBE Firms Identified in Procurements

   (a) Certain procurements will include a list of the DBE Firms identified during the goal setting process as available to perform the items of work. If the procurement provides a list of Identified DBE Firms, the bidder/offeror shall make all reasonable efforts to solicit those DBE firms.

   (b) Bidders/offerors may, and are encouraged to, search the MBE/DBE Directory to identify additional DBEs who may be available to perform the items of work, such as DBEs certified or granted an expansion of services after the solicitation was issued.

2. MBE/DBE Firms Identified by Bidders/Offerors

   (a) When the procurement does not include a list of Identified MBE/DBE Firms, bidders/offerors should reasonably identify the MBE Firms or DBE Firms, whichever is appropriate, that are available to perform the Identified Items of Work.

   (b) Any MBE/DBE Firms identified as available by the bidder/offeror should be certified in the appropriate program (MBE for State-funded procurements or DBE for federally-funded procurements)

   (c) Any MBE/DBE Firms identified as available by the bidder/offeror should be certified to perform the Identified Items of Work.
C. Solicit MBE/DBEs

1. Solicit all Identified Firms for all Identified Items of Work by providing written notice. The bidder/offeror should:

   (a) provide the written solicitation at least 10 days prior to bid opening to allow sufficient time for the MBE/DBE Firms to respond;

   (b) send the written solicitation by first-class mail, facsimile, or email using contact information in the MBE/DBE Directory, unless the bidder/offeror has a valid basis for using different contact information; and

   (c) provide adequate information about the plans, specifications, anticipated time schedule for portions of the work to be performed by the MBE/DBE, and other requirements of the contract to assist MBE/DBE Firms in responding. (This information may be provided by including hard copies in the written solicitation or by electronic means as described in C.3 below.)

2. “All” Identified Firms includes the DBEs listed in the procurement and any MBE/DBE Firms you identify as potentially available to perform the Identified Items of Work, but it does not include MBE/DBE Firms who are no longer certified to perform the work as of the date the bidder/offeror provides written solicitations.

3. “Electronic Means” includes, for example, information provided via a website or file transfer protocol (FTP) site containing the plans, specifications, and other requirements of the contract. If an interested MBE/DBE cannot access the information provided by electronic means, the bidder/offeror must make the information available in a manner that is accessible by the interested MBE/DBE.

4. Follow up on initial written solicitations by contacting DBEs to determine if they are interested. The follow up contact may be made:

   (a) by telephone using the contact information in the MBE/DBE Directory, unless the bidder/offeror has a valid basis for using different contact information; or

   (b) in writing via a method that differs from the method used for the initial written solicitation.

5. In addition to the written solicitation set forth in C.1 and the follow up required in C.4, use all other reasonable and available means to solicit the interest of MBE/DBE Firms certified to perform the work of the contract. Examples of other means include:

   (a) attending any pre-bid meetings at which MBE/DBE Firms could be informed of contracting and subcontracting opportunities;

   (b) if recommended by the procurement, advertising with or effectively using the services of at least two minority focused entities or media, including trade associations, minority/women community organizations, minority/women contractors' groups, and local, state, and federal minority/women business assistance offices listed on the MDOT Office of Minority Business Enterprise website; and

   (c) effectively using the services of other organizations, as allowed on a case-by-case basis and authorized in the procurement, to provide assistance in the recruitment and placement of MBE/DBE Firms.

D. Negotiate With Interested MBE/DBE Firms

Bidders/Offerors must negotiate in good faith with interested MBE/DBE Firms.

1. Evidence of negotiation includes, without limitation, the following:

   (a) the names, addresses, and telephone numbers of MBE/DBE Firms that were considered;
(b) a description of the information provided regarding the plans and specifications for the work selected for subcontracting and the means used to provide that information; and

(c) evidence as to why additional agreements could not be reached for MBE/DBE Firms to perform the work.

2. A bidder/offeror using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration.

3. The fact that there may be some additional costs involved in finding and using MBE/DBE Firms is not in itself sufficient reason for a bidder's/offeror's failure to meet the contract DBE goal, as long as such costs are reasonable. Factors to take into consideration when determining whether a MBE/DBE Firm’s quote is excessive or unreasonable include, without limitation, the following:

   (a) the dollar difference between the MBE/DBE subcontractor’s quote and the average of the other subcontractors’ quotes received by the bidder/offeror;

   (b) the percentage difference between the MBE/DBE subcontractor's quote and the average of the other subcontractors’ quotes received by the bidder/offeror;

   (c) the percentage that the DBE subcontractor’s quote represents of the overall contract amount;

   (d) the number of MBE/DBE firms that the bidder/offeror solicited for that portion of the work;

   (e) whether the work described in the MBE/DBE and Non-MBE/DBE subcontractor quotes (or portions thereof) submitted for review is the same or comparable; and

   (f) the number of quotes received by the bidder/offeror for that portion of the work.

4. The above factors are not intended to be mandatory, exclusive, or exhaustive, and other evidence of an excessive or unreasonable price may be relevant.

5. The bidder/offeror may not use its price for self-performing work as a basis for rejecting a MBE/DBE Firm’s quote as excessive or unreasonable.

6. The “average of the other subcontractors' quotes received by the” bidder/offeror refers to the average of the quotes received from all subcontractors, except that there should be quotes from at least three subcontractors, and there must be at least one quote from a MBE/DBE and one quote from a Non-MBE/DBE.

7. A bidder/offeror shall not reject a MBE/DBE Firm as unqualified without sound reasons based on a thorough investigation of the firm’s capabilities. For each certified MBE/DBE that is rejected as unqualified or that placed a subcontract quotation or offer that the bidder/offeror concludes is not acceptable, the bidder/offeror must provide a written detailed statement listing the reasons for this conclusion. The bidder/offeror also must document the steps taken to verify the capabilities of the MBE/DBE and Non-MBE/DBE Firms quoting similar work.

   (a) The factors to take into consideration when assessing the capabilities of a MBE/DBE Firm, include, but are not limited to the following: financial capability, physical capacity to perform, available personnel and equipment, existing workload, experience performing the type of work, conduct and performance in previous contracts, and ability to meet reasonable contract requirements.

   (b) The MBE/DBE Firm’s standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the efforts to meet the project goal.
E. **Assisting Interested MBE/DBE Firms**

When appropriate under the circumstances, the decision-maker will consider whether the bidder/offeror:

1. made reasonable efforts to assist interested MBE/DBE Firms in obtaining the bonding, lines of credit, or insurance required by MDOT or the bidder/offeror; and

2. made reasonable efforts to assist interested MBE/DBE Firms in obtaining necessary equipment, supplies, materials, or related assistance or services.

III. **Other Considerations**

In making a determination of Good Faith Efforts the decision-maker may consider engineering estimates, catalogue prices, general market availability and availability of certified MBE/DBE Firms in the area in which the work is to be performed, other bids or offers and subcontract bids or offers substantiating significant variances between certified MBE/DBE and Non-MBE/DBE costs of participation, and their impact on the overall cost of the contract to the State and any other relevant factors.

The decision-maker may take into account whether a bidder/offeror decided to self-perform subcontract work with its own forces, especially where the self-performed work is Identified Items of Work in the procurement. The decision-maker also may take into account the performance of other bidders/offerors in meeting the contract. For example, when the apparent successful bidder/offeror fails to meet the contract goal, but others meet it, this reasonably raises the question of whether, with additional reasonable efforts, the apparent successful bidder/offeror could have met the goal. If the apparent successful bidder/offeror fails to meet the goal, but meets or exceeds the average MBE/DBE participation obtained by other bidders/offerors, this, when viewed in conjunction with other factors, could be evidence of the apparent successful bidder/offeror having made Good Faith Efforts.

IV. **Documenting Good Faith Efforts**

At a minimum, a bidder/offeror seeking a waiver of the MBE/DBE Goal(s) or a portion thereof must provide written documentation of its Good Faith Efforts, in accordance with COMAR 21.11.03.11, within 10 business days after receiving notice that it is the apparent awardee. The written documentation shall include the following:

A. **Items of Work (Complete Good Faith Efforts Documentation Form E, Part 2)**

A detailed statement of the efforts made to select portions of the work proposed to be performed by certified MBE/DBE Firms in order to increase the likelihood of achieving the stated MBE/DBE Goal(s).

B. **Outreach/Solicitation/Negotiation**

1. The record of the bidder's/offeror's compliance with the outreach efforts prescribed by COMAR 21.11.03.09C(2)(a) through (e) and 49 C.F.R. Part 26, Appendix A. **(Complete Outreach Efforts Compliance Statement)**

2. A detailed statement of the efforts made to contact and negotiate with MBE/DBE Firms including:

   (a) the names, addresses, and telephone numbers of the MBE/DBE Firms who were contacted, with the dates and manner of contacts (letter, fax, email, telephone, etc.) **(Complete Good Faith Efforts Form E, Part 3, and submit letters, fax cover sheets, emails, etc. documenting solicitations); and**

   (b) a description of the information provided to MBE/DBE Firms regarding the plans, specifications, and anticipated time schedule for portions of the work to be performed and the means used to provide that information.
C. Rejected MBE/DBE Firms (Complete Good Faith Efforts Form E, Part 4)

1. For each MBE/DBE Firm that the bidder/offeror concludes is not acceptable or qualified, a detailed statement of the reasons for the bidder's/offeror's conclusion, including the steps taken to verify the capabilities of the MBE/DBE and Non-MBE/DBE Firms quoting similar work.

2. For each certified MBE/DBE Firm that the bidder/offeror concludes has provided an excessive or unreasonable price, a detailed statement of the reasons for the bidder's/offeror's conclusion, including the quotes received from all MBE/DBE and Non-MBE/DBE firms bidding on the same or comparable work. (Include copies of all quotes received.)

3. A list of MBE/DBE Firms contacted but found to be unavailable. This list should be accompanied by a Minority Contractor Unavailability Certificate signed by the MBE/DBE contractor or a statement from the bidder/offeror that the MBE/DBE contractor refused to sign the Minority Contractor Unavailability Certificate.

D. Other Documentation

1. Submit any other documentation requested by the Procurement Officer to ascertain the bidder's/offeror's Good Faith Efforts.

2. Submit any other documentation the bidder/offeror believes will help the Procurement Officer ascertain its Good Faith Efforts.

Identify those items of work that the bidder/offeror made available to MBE/DBE Firms. This includes, where appropriate, those items the bidder/offeror identified and determined to subdivide into economically feasible units to facilitate the MBE/DBE participation. For each item listed, show the anticipated percentage of the total contract amount. It is the bidder’s/offeror’s responsibility to demonstrate that sufficient work to meet the goal was made available to MBE/DBE Firms, and the total percentage of the items of work identified for MBE/DBE participation equals or exceeds the percentage MBE/DBE goal set for the procurement. Note: If the procurement includes a list of bid items identified during the goal setting process as possible items of work for performance by MBE/DBE Firms, the bidder/offeror should make all of those items of work available to MBE/DBE Firms or explain why that item was not made available. If the bidder/offeror selects additional items of work to make available to MBE/DBE Firms, those additional items should also be included below.

Identify the MBE/DBE Firms solicited to provide quotes for the Identified Items of Work made available for MBE/DBE participation. Include the name of the MBE/DBE Firm solicited, items of work for which bids/quotes were solicited, date and manner of initial and follow-up solicitations, whether the MBE/DBE provided a quote, and whether the MBE/DBE is being used to meet the MBE/DBE participation goal. MBE/DBE Firms used to meet the participation goal must be included on the MBE/DBE Participation Schedule, Form B. Note: If the procurement includes a list of the MBE/DBE Firms identified during the goal setting process as potentially available to perform the items of work, the bidder/offeror should solicit all of those MBE/DBE Firms or explain why a specific MBE/DBE was not solicited. If the bidder/offeror identifies additional MBE/DBE Firms who may be available to perform Identified Items of Work, those additional MBE/DBE Firms should also be included below. Copies of all written solicitations and documentation of follow-up calls to MBE/DBE Firms must be attached to this form. (INSTRUCTIONS)

1) For this TORFP,
   a) Master Contractors shall comply with all personnel requirements defined under the Master Contract RFP 060B2490023.
   b) Master Contractors shall propose the CATS+ Labor Category that best fits each proposed resource. A Master Contractor may only propose against labor categories in the Master Contractor’s CATS+ Master Contract Financial Proposal.
   c) A Master Contractor’s entire TO Technical Proposal will be deemed not susceptible for award if any of the following occurs:
      i) Failure to follow these instructions.
      ii) Failure to propose a resource for each job title or labor category identified in the TORFP as a required submission.
      iii) Failure of any proposed resource to meet minimum requirements as listed in this TORFP and in the CATS+ Master Contract.
      iv) Placing content on the Minimum Qualifications Summary that is not also on the Personnel Resume Form. The function of the Minimum Qualifications Summary is to aid the agency to make a minimum qualification determination. Information on the Minimum Qualification Summary must correspond with information on the Personnel Resume form and shall not contain additional content not found on the other form.
      v) A resource proposed in response to this TORFP is not available as of TO award. Substitutions prior to award are considered alternate proposals and will not be allowed.
   d) Complete and sign the Minimum Qualifications Summary (Attachment 5A) and the Personnel Resume Form (Attachment 5B) for each resource proposed. Alternate resume formats are not allowed.
      i) The Minimum Qualifications Summary demonstrates the proposed resource meets minimum qualifications for the labor category, as defined in the CATS+ Master Contract RFP Section 2.10, and any additional minimum requirements stated in this TORFP. For each minimum qualification, indicate the location on the Personnel Resume Form (5B) demonstrating meeting this requirement.

Only include the experience relevant to meeting a particular minimum qualification. Every skill must be linked to specific work experience and/or education. The Minimum Qualification Summary shall not contain content that cannot be correlated to the Personnel Resume form.

Every experience listed on the Minimum Qualifications Resume Summary must be explicitly listed with start and stop dates. Where there is a time requirement such as three months’ experience, you must provide the dates from and to showing an amount of time that equals or exceeds the mandatory time requirement; in this case, three months. Note: Overlapping time periods shall only count once against a specific minimum qualification (i.e., a minimum qualification may not be met by listing two examples occurring during the same time period.).
ii) The **Personnel Resume Form** provides resumes in a standard format. Additional information may be attached to each Personnel Resume Summary if it aids a full and complete understanding of the individual proposed.

The names of the TO Contractor’s Personnel are attached hereto and made a part hereof as Exhibit A. Each individual whose name appears on Exhibit A shall execute a copy of this Agreement and thereby be subject to the terms and conditions of this Agreement to the same extent as the TO Contractor. TO Contractor shall update Exhibit A by adding additional names as needed, from time to time.

3. If the TO Contractor intends to disseminate any portion of the Confidential Information to non-employee agents who are assisting in the TO Contractor’s performance of the TORFP or who will otherwise have a role in performing any aspect of the TORFP, the TO Contractor shall first obtain the written consent of the State to any such dissemination. 7. A breach of this Agreement by the TO Contractor or by the TO Contractor’s Personnel shall constitute a breach of the Master Contract Agreement between the TO Contractor and the State.

8. TO Contractor acknowledges that any failure by the TO Contractor or the TO Contractor’s Personnel to abide by the terms and conditions of use of the Confidential Information may cause irreparable harm to the State and that monetary damages may be inadequate to compensate the State for such breach. Accordingly, the TO Contractor agrees that the State may obtain an injunction to prevent the disclosure, copying or improper use of the Confidential Information. The TO Contractor consents to personal jurisdiction in the Maryland State Courts. The State’s rights and remedies hereunder are cumulative and the State expressly reserves any and all rights, remedies, claims and actions that it may have now or in the future to protect the Confidential Information and/or to seek damages from the TO Contractor and the TO Contractor’s Personnel for a failure to comply with the requirements of this Agreement. In the event the State suffers any losses, damages, liabilities, expenses, or costs (including, by way of example only, attorneys’ fees and disbursements) that are attributable, in whole or in part to any failure by the TO Contractor or any of the TO Contractor’s Personnel to comply with the requirements of this Agreement, the TO Contractor shall hold harmless and indemnify the State from and against any such losses, damages, liabilities, expenses, and/or costs.

9. TO Contractor and each of the TO Contractor’s Personnel who receive or have access to any Confidential Information shall execute a copy of an agreement substantially similar to this Agreement and the TO Contractor shall provide originals of such executed Agreements to the State.

10. The parties further agree that:
