SECTION 1 - ADMINISTRATIVE INFORMATION

1.1 RESPONSIBILITY FOR TORFP AND TO AGREEMENT

The TO Procurement Officer has the primary responsibility for the management of the TORFP process, for the resolution of TO Agreement scope issues, and for authorizing any changes to each TO Agreement. See Section 2.9 for information on change orders.

The TO Manager has the primary responsibility for the management of the work performed under each TO Agreement; administration functions, including issuing written directions; ensuring compliance with the terms and conditions of the CATS Master Contract; and, in conjunction with each selected Master Contractor (TO Contractor), achieving on budget/on time/on target (e.g., within scope) completion of the Scope of Work (SOW).

1.2 TO AGREEMENT

Up to two Master Contractors, one for each Independent Verification & Validation (IV&V) assessment, may be selected to conduct the work defined in Section 2 - SOW. A specific TO Agreement, Attachment 3, will then be entered into between the State and the selected TO Contractor(s), which will bind the TO Contractor(s) to the contents of its TO Proposal(s), including the price proposal(s).

1.3 TO PROPOSAL SUBMISSIONS

Master Contractors who choose to submit a TO Proposal must submit a single TO Proposal that encompasses one or both IV&Vs. TO Proposal submissions must **bear the number of one or both individual IV&Vs (See Section 3 for TO Proposal format and submission instructions).**

The TO Procurement Officer will not accept submissions after the date and exact time as stated on the Key Information Summary Sheet. The time will be local time as determined by DBM's e-mail system time stamp. TO Proposals shall be submitted via e-mail. The "subject" line in the e-mail submission shall state the appropriate IV&V number(s). The first attachment will be the TO Proposal technical response to this TORFP encompassing and bearing the individual number (s) for one or both IV&Vs. Subsequent attachments shall be the financial response or responses to this TORFP, one for each IV&V.

The proposal documents requiring a signature, Attachment 2 - MBE Forms D-1 and D-2 and Attachment 4 Conflict of Interest Affidavit and Disclosure, must be submitted as .PDF files with the signatures clearly visible. Separate sets of these documents must be submitted and marked by IV&V number for each IV&V encompassed in the technical response.

1.4 MINORITY BUSINESS ENTERPRISE (MBE)

A Master Contractor that responds to this TORFP shall complete, sign, and submit all required MBE documentation (Attachment 2 - MBE Forms D-1 and D-2) at the time it submits its TO Proposal. The MBE goal of 30 percent shall apply to each IV&V. Separate and complete MBE documentation is required for each individual IV&V encompassed in the technical response. **Failure of the Master Contractor to complete, sign, and submit all required MBE documentation at the time it submits its TO Proposal will result in the State's rejection of the Master Contractor's TO Proposal.**

1.5 eMARYLANDMARKETPLACE FEE

Code of Maryland Regulations (COMAR) 21.02.03.06 requires that each Master Contractor that wins a TO Agreement under this TORFP pay a fee to support the operation of eMarylandMarketplace. The fee will be due on each TO Agreement that exceeds \$25,000. The applicable fee will be based on each TO Agreement value, including any options. Each TO Contractor shall pay the fee as provided by COMAR 21.02.03.06 and in accordance with guidelines issued by the Maryland Department of General Services (DGS). A copy of COMAR 21.02.03.06 and the guidelines issued by DGS can be found on the eMarylandMarketplace website at www.eMarylandMarketplace.com.

The price of each TO Proposal shall include the appropriate fee as per the COMAR 21.02.03.06 fee schedule. Fees may not be quoted as a separate add-on price. A total TO Agreement value that is other than an even dollar amount will be rounded to the nearest whole dollar to determine the appropriate fee level. For example, a total TO Agreement value of \$50,000.49 will be rounded to \$50,000 and a Level 1 fee will apply. A total TO Agreement value of \$50,000.50 will be rounded to \$50,001 and a Level 2 fee will apply.

1.6 CONFLICT OF INTEREST

Each TO Contractor awarded a TO Agreement shall provide Information Technology (IT) consulting services for DBM, and must do so impartially and without any conflicts of interest. Each Master Contractor shall complete and include a Conflict of Interest Affidavit and Disclosure form included as Attachment 4 to this TORFP, with its TO Proposal. If the TO Procurement Officer makes a determination that facts or circumstances exist that give rise to or could in the future give rise to a conflict of interest within the meaning of COMAR 21.05.08.08A, the TO Procurement Officer may reject a Master Contractor's TO Proposal under COMAR 21.06.02.03B.

Master Contractors should be aware that the State Ethics Law, State Government Article, §15-508, might limit the selected Master Contractor's ability to participate in future related procurements, depending upon specific circumstances.

1.7 NON-DISCLOSURE AGREEMENT

Certain system documentation may be available for Master Contractors to review at the State agencies hosting the projects identified for IV&V review as described in this TORFP. Master Contractors who wish to review such documentation will be required to sign the Non-Disclosure Agreement (Master Contractor) form included as Attachment 8 to this TORFP. Please contact the TO Procurement Officer of this TORFP to coordinate an appointment with the agencies if interested.

In addition, certain documentation may be required to be obtained by TO Contractors awarded TO Agreements in order to fulfill the requirements of TO Agreements. The TO Contractors, employees and agents who review such documents will be required to sign, including, but not limited to, a Non-Disclosure Agreement (TO Contractor) form included as Attachment 9.

1.8 LIMITATION OF LIABILITY

Pursuant to Section 28(C) of the CATS Master Contract, the limitation of liability ceiling is hereby reduced as follows: Contractor's liability per claim under this TORFP shall not exceed the total TO Agreement amount established for each respective assessment.

1.9 ORAL PRESENTATIONS

Master Contractors will be required to make oral presentations to State representatives. Significant representations made by a Master Contractor during the oral presentation must be reduced to writing. All such representations will become part of the Master Contractor's proposal and are binding, if the contract is awarded. The Procurement Officer will notify the Master Contractors of the time and place of oral presentations. Oral presentations will occur within one week after the proposal due date.

SECTION 2 - SCOPE OF WORK

2.1 PURPOSE AND APPROACH

2.1.1 Purpose

DBM seeks to select an certified SBR Master Contractor experienced in IT consulting to perform an IV&V for each of the following Major Information Technology Development Projects:

- 1) Highway Maintenance Management System (HMMS), sponsored by the Maryland Department of Transportation (MDOT), State Highway Administration (SHA); and
- 2) Assessment and Administration Valuation System (AAVS), sponsored by the Maryland State Department of Assessments and Taxation (SDAT).

The purpose of each IV&V is to assess the health of the project according to the objectives listed, respectively, in Sections 2.2.1 and 2.3.1. In the first phase of each IV&V, the TO Contractor(s) shall research and develop a written report and live presentation of findings based on the IV&V objectives. The resulting *IV&V Draft Findings Report* deliverable captures project disposition along with potential solutions to deficiencies. Findings shall describe project strengths, weaknesses, and any corrective actions recommended by the TO Contractor(s).

In a second, optional phase of each IV&V, DBM may task the TO Contractor(s) to develop an IV&V Corrective Action Plan (CAP) in collaboration with the agency and DBM. If exercised, the second phase also requires the TO Contractor(s) to monitor and report on agency compliance with the CAP and provide on-site assistance to support agency corrective actions. As warranted by DBM, a third phase may be exercised to continue monitoring agency compliance with the CAP by the TO Contractor. These and all other IV&V project deliverables are described in detail in Section 2.4 Deliverables and Time of Performance.

DBM may make up to two awards, one each per IV&V. Separate and distinct Notices to Proceed (NTP) shall be given separately for each IV&V and may be staggered.

2.1.2 Approach

The approach for each IV&V assessment shall include independent research, stakeholder interviews, and the review and analyses of project files and documentation. In working with project stakeholders, the TO Contractor(s) shall strive to minimize or avoid any impact on the target project schedule. The TO Contractor(s) shall assign an "IV&V Project Manager" who shall be the TO Contractor's lead resource on one or both IV&Vs. The IV&V Project Manager must be certified by the Project Management Institute (PMI) as a Project Management Professional (PMP). The TO Contractor(s) shall provide the deliverables as described in Section 2.4 Deliverables and Time of Performance.

In executing the IV&V and developing IV&V deliverables, the TO Contractor(s) shall apply recognized project management best practices and industry standards according to PMI. Specifically, with regard to the treatment of findings on State agency project management processes, the TO Contractor(s) shall formulate findings in terms consistent with the PMI's Project Management Body of Knowledge (PMBOK). Where an evaluation of the technical feasibility of an IT solution is required, the TO Contractor(s) shall apply the Software Engineering Institute's Capability Maturity Model or other recognized industry standard.

2.2 IV&V ASSESSMENT 1 – Highway Maintenance Management System (HMMS)

2.2.1 Objectives of the IV&V

The TO Contractor will assess the HMMS project focusing on:

- A) Project management processes consistent with: 1) The project management knowledge areas described in the PMBOK with emphasis on Time, Scope and Cost Management; and 2) Application of the State of Maryland's SDLC methodology;
- B) Capability of the HMMS Project Manager, or designee, to report accurately on project financials including

total project costs associated with satisfying the phases of the Systems Development Life Cycle (SDLC).

- C) Project governance meaning the extent to which the agency has effectively: 1) Defined roles and expectations among all internal and external stakeholders; 2) Implemented an appropriate flow of project information among stakeholders; 3) Instituted a process for review and response to project issues including escalation to the executive sponsor; and 4) Instituted a process for executive approvals (for example, sign-off on SDLC documents) at appropriate project milestones; and
- D) Technical feasibility of the IT solution to conform to project requirements.

2.2.2 Project Overview

This project is to implement HMMS to store historical data, produce trend reporting, forecast future resource requirements, and provide maintenance options under various funding scenarios, all in support of the preservation of roadway and bridge assets.

2.2.3 IT Solution

The HMMS shall be a commercial-off-the-shelf (COTS) software solution. The system requirements analysis process currently is under way (See Section 2.2.4).

2.2.4 Project Status (Status as of April 2007. Updated status shall be provided upon IV&V Notice to Proceed (NTP))

The HMMS project has an approved Charter. A Consulting and Technical Services (CATS) TO Agreement, awarded in July 2006, supports the project through the requirements phase with scheduled SDLC deliverables and will validate and finalize previously developed application functional requirements. The final contract deliverable is a CATS Task Order Request for Proposals (TORFP) for a COTS product and implementation and development services. The contractor delivered the project's Risk Management Plan and assessment, which was accepted. The System Boundary Document was the next deliverable submitted in February 2007. Joint Application Design (JAD) sessions on business process requirements are in progress as of April 2007. When the JAD sessions are completed, the resulting product shall be source documents for creating the CATS TORFP for system development.

2.2.5 Project Business Needs and Justification

The HMMS shall support Goal #3 of SHA's Business Plan that reads "Maintain a Quality Highway System" (See: <http://www.marylandroads.com/aboutus/shabusinessetnl.pdf>). SHA operational objectives and strategies to achieve this goal require a robust HMMS that can assist SHA managers in making good resource allocation decisions to meet SHA highway maintenance goals most efficiently.

2.2.6 Project Stakeholders

- A) SHA Office of Maintenance;
- B) SHA District Maintenance Offices (7 locations); and
- C) SHA Office of Finance.

2.2.7 Project Benefits

Internal benefits include that SHA managers shall have more timely access to information pertinent to decision making. Currently, excess hours are spent developing answers to questions regarding past expenditures, current resource allocations, and future needs for budget justifications. The implementation of HMMS will save business process time and allow for the improved allocation of management and funding resources.

External benefits to the traveling public shall stem from maintenance activities that are more proactive. Faster access to maintenance information will allow SHA to address problems along the highways promptly before becoming larger problems.

2.2.8 Interviews

The TO Contractor shall interview relevant parties as part of the IV&V to include:

- A) SHA Office of Maintenance Director
- B) SHA Executive Sponsor;
- C) SHA Project Manager;
- D) SHA Chief Information Officer;
- E) SHA Chief Financial Officer;
- F) The Contractor's Project Manager;
- G) A representative number of SHA District Maintenance Office Supervisors;
- H) Individuals identified post-NTP by SHA, e.g., during the IV&V Kick-off meeting; and
- I) Other individuals identified independently by the TO Contractor(s) during the IV&V assessment.

2.3 IV&V ASSESSMENT 2 – Assessment and Administration Valuation System (AAVS)

2.3.1 Objectives of the IV&V

The TO Contractor will assess the AAVS project focusing on:

- A) Project management processes consistent with: 1) The project management knowledge areas described in the PMBOK with emphasis on Time, Scope and Cost Management; and 2) Application of the State of Maryland's SDLC methodology;
- B) Capability of the AAVS Project Manager, or designee, to report accurately on project financials including total project costs associated with satisfying the phases of the SDLC;
- C) Project governance meaning the extent to which the agency has effectively: 1) Defined roles and expectations among all internal and external stakeholders; 2) Implemented an appropriate flow of project information among stakeholders; 3) Instituted a process for review and response to project issues including escalation to the executive sponsor; and 4) Instituted a process for executive approvals (for example, sign-off on SDLC documents) at appropriate project milestones; and
- D) Technical feasibility of the IT solution to conform to project requirements.

2.3.2 Project Overview

The AAVS project will encompass the purchase of a COTS software solution that will provide for a single real property database with statewide access. This new system will provide for the consolidation of two existing data systems. The first is the Real Property Administration Data System (ADS) which is the land management system used to maintain property location and account ownership information. The second is the Valuation System that provides for property valuation and a Relational Database Management System (RDMS). Consolidation of the two systems to one RDMS will provide all of the functionality of the current land management and valuation systems, as well as additional system processing efficiencies.

2.3.3 Project IT Solution

The solution is to migrate and integrate the two existing Real Property Division data systems into one integrated statewide database available to all 24 local assessment offices. The strategy is to procure a COTS solution that provides for existing land management and valuation functionality as well as additional processing efficiencies.

2.3.4 Project Status (Status as of April 2007. Updated status shall be provided upon IV&V NTP)

SDAT awarded the contract to Software Techniques, Inc. (STI) for the COTS solution. The contract was approved by the Board of Public Works in October 2006. An official NTP of November 21, 2006, was given to STI. A

project kickoff workshop was held in early December 2006. The project is currently in the Requirements Analysis phase of the SDLC. The project is expected to take two years to fully implement with a total statewide rollout completed by January 2009.

2.3.5 Project Business Needs and Justification

Currently, SDAT maintains the ADS, which is programmed in COBOL using Virtual Sequential Access Method (VSAM) and resides at the Annapolis Data Center. SDAT also maintains the Valuation System, which is made up of 24 separate Visual FoxPro databases residing on 24 servers located at each local office. SDAT faces two situations going forward, namely, moving from VSAM to RDBMS, and the limitations of the current Valuation System with regard to statewide access, the ability to maintain property attributes beyond the valuation component, diminished system support, and limitations on upgrading the existing customized software.

The current systems do not provide the overall flexibility and functionality that SDAT requires. For example, the ADS maintains property account location and ownership information. SDAT personnel must key into this system to transfer property or create new parcels. That information must then be downloaded to the Valuation System. Each local assessment office must maintain and keep correlated two parallel systems to provide their assessors with administrative information to engage in the valuation process. The VSAM file structure of the ADS makes it difficult to expand the system and increase record sizes to accommodate SDAT's growing requirements.

2.3.6 Project Stakeholders

- A) SDAT Real Property Division;
- B) County government tax assessment offices; and
- C) Local government tax assessment offices.

2.3.7 Project Benefits

- A) Increased processing efficiency through integration of the ADS and Valuation Systems into a single efficient system;
- B) System scalability and centralized system maintenance;
- C) Added capacity to collect and store information on property characteristics and attributes (The current systems are at capacity);
- D) Expanded access to information (e.g., property worksheets, sketches, and comparison property data) for SDAT personnel, as well as additional access for the public and other local government agencies;
- E) Enhanced reporting capability for property and valuation information.

2.3.8 Interviews

The TO Contractor shall interview relevant parties as part of the IV&V to include:

- A) SDAT Executive Sponsor;
- B) SDAT Project Manager;
- C) SDAT Real Property Division Director;
- D) The Contractor's Project Manager;
- E) A representative number of officials from State and local tax offices;
- F) Individuals identified post-NTP by SDAT, e.g., during the IV&V Kick-off meeting; and
- G) Other individuals identified independently by the TO Contractor(s) during the IV&V assessment.

2.4 DELIVERABLES AND TIME OF PERFORMANCE

For each written deliverable described in the table below, the TO Contractor(s) shall submit to the TO Manager an electronic copy compatible with Microsoft Office 2003. With each deliverable, the TO Contractor shall submit a Deliverable Product Acceptance Form (DPAF) included as Attachment 7.

Written deliverables defined as draft documents must demonstrate due diligence in meeting the scope and requirements of the associated final written deliverable. A draft written deliverable may contain negligible text errors, but must:

- A) Be presented in a format appropriate for the subject matter and depth of discussion;
- B) Be organized in a manner that presents a logical flow of the deliverable’s content;
- C) Represent relevant, factual information that is current and accurate at the time of submittal; and
- D) Represent significant completeness towards the final written deliverable.

Upon receipt of a deliverable, the TO Manager shall review the deliverable to validate completeness and quality in meeting requirements. TO Manager shall document acceptance or rejection of the deliverable on the accompanying DPAF provided by the TO Contractor(s) as described above.

In the event of deliverable rejection, the TO Contractor(s) shall correct the identified deficiencies or non-conformities within five working days from rejection. At the discretion of the TO Manager, and as evidenced by the TO Manager’s written waiver, subsequent project tasks may not continue until deficiencies are rectified and the deliverable is formally accepted by the TO Manager as provided herein. Accepted deliverables shall be invoiced within 30 days in the applicable invoice format (See Section 2.8).

When presented for acceptance, a written deliverable defined as a final document must satisfy the scope and requirements of this TORFP for that deliverable. Final written deliverables shall not contain structural errors such as poor grammar, misspellings or incorrect punctuation, and must:

- A) Be presented in a format appropriate for the subject matter and depth of discussion;
- B) Be organized in a manner that presents a logical flow of the deliverable’s content; and
- C) Represent relevant, factual information that is current and accurate at the time of submittal.

The required deliverables and required time frames for completion based on NTP are defined in the table below. Deliverables may be submitted earlier than indicated, with the written approval of the TO Manager.

Note: For meetings and presentations described in this Section, due dates are approximate based upon the availability of attendees. For written deliverables, due dates that fall on a non-working day for the State shall be due the next working day.

TO CONTRACTOR MBE REPORTING REQUIREMENTS

CATS TORFP

F10P720050 __ARE THESE THE LATEST?

These instructions are meant to accompany the customized reporting forms sent to you by the TO Manager. If, after reading these instructions, you have additional questions or need further clarification, please contact the TO Manager immediately.

1. As the TO Contractor, you have entered into a TO Agreement with the State of Maryland. As such, your company/firm is responsible for successful completion of all deliverables under the TO Agreement, including your commitment to making a good faith effort to meet the MBE participation goal(s) established for this TORFP. Part of that effort, includes submission of monthly reports to the State regarding the previous month's MBE payment activity. Reporting forms D-5 (TO Contractor Paid/Unpaid MBE Invoice Report) and D-6 (Subcontractor Paid/Unpaid MBE Invoice Report) are attached for your use and convenience.
2. The TO Contractor must complete a separate form D-5 for each MBE subcontractor for each month of the TO Agreement and submit one copy to each of the locations indicated at the bottom of the form. The report is due not later than the 15th of the month following the month that is being reported. For example, the report for January's activity is due not later than the 15th of February. With the approval of the TO Manager, the report may be submitted electronically. Note: Reports are required to be submitted each month, regardless of whether there was any MBE payment activity for the reporting month.
3. The TO Contractor is responsible for ensuring that each subcontractor receives a copy (e-copy and/or hard copy) of form D-6. The TO Contractor should make sure that the subcontractor receives all the information necessary to complete the form properly, i.e., all of the information located in the upper right corner of the form. It may be wise to customize form D-6 (upper right corner of the form) for the subcontractor the same as the form D-5 was customized by the TO Manager for the benefit of the TO Contractor. This will help to minimize any confusion for those who receive and review the reports.
4. It is the responsibility of the TO Contractor to make sure that all subcontractors submit reports not later than the 15th of each month regardless of whether there was any MBE payment activity for the reporting month. Actual payment data is verified and entered into the State's financial management tracking system from the subcontractor's D-6 report only. Therefore, if the subcontractor(s) do not submit their D-6 payment reports, the TO Contractor cannot and will not be given credit for subcontractor payments, regardless of the TO Contractor's proper submission of the form D-5. The TO Manager will contact the TO Contractor if reports are not received each month from either the prime TO Contractor or any of the identified subcontractors. The TO Contractor must promptly notify the TO Manager if, during the course of the contract, a new MBE subcontractor is utilized.

FORM D-1

CERTIFIED MBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT

Offeror shall complete and submit a separate Form D-1 (Certified MBE Utilization and Fair Solicitation Affidavit) with each TO Technical Proposal for which it proposes an assessment. If the Offeror fails to submit this Form D-1 with the TO Technical Proposal for each assessment proposed, the TO Procurement Officer shall determine that any TO Proposal for which the Form D-1 was not submitted is not reasonably susceptible of being selected for award.

In conjunction with the offer submitted in response to TORFP No. F10P720050__, I affirm the following:

1. I acknowledge the overall certified MBE participation goal of ___ percent I have made a good faith effort to achieve this goal.

OR

After having made a good faith effort to achieve the MBE participation goal, I conclude I am unable to achieve it. Instead, I intend to achieve an MBE goal of _____percent and request a waiver of the remainder of the goal. If I am the apparent TORFP awardee, I will submit written waiver documentation that complies with COMAR 21.11.03.11 within 10 business days of receiving notification that our firm is the apparent low bidder or the apparent awardee.

2. I have identified the specific commitment of each certified MBE by completing and submitting an MBE Participation Schedule (Attachment D-2) with the TO Technical Proposal.
3. I acknowledge that the MBE subcontractors/suppliers listed in the MBE Participation Schedule will be used to accomplish the percentage of MBE participation that I intend to achieve.
4. I understand that if I am notified that I am the apparent TO awardee, I must submit the following documentation within 10 working days of receiving notice of the potential award or from the date of conditional award (per COMAR 21.11.03.10), whichever is earlier.
 - (a) Outreach Efforts Compliance Statement (Attachment D-3)
 - (b) Subcontractor Project Participation Statement (Attachment D-4)
 - (c) MBE Waiver Documentation per COMAR 21.11.03.11 (if applicable)
 - (d) Any other documentation required by the TO Procurement Officer to ascertain the offeror's responsibility in connection with the certified MBE participation goal.

If I am the apparent TORFP awardee, I acknowledge that if I fail to return each completed document within the required time, the TO Procurement Officer may determine that I am not responsible and therefore not eligible for TORFP award. If the TORFP has already been awarded, the award is voidable.

5. In the solicitation of subcontract quotations or offers, MBE subcontractors were provided not less than the same information and amount of time to respond as were non-MBE subcontractors.

I solemnly affirm under the penalties of perjury that the contents of this paper are true to the best of my knowledge, information, and belief.

2.3 The TO Procurement Officer may, at any time, by written order, make changes in the work within the general scope of the TO Agreement. No other order, statement or conduct of the TO Procurement Officer or any other person shall be treated as a change or entitle the TO Contractor to an equitable adjustment under this section. Except as otherwise provided in this TO Agreement, if any change under this section causes an increase or decrease in the TO Contractor's cost of, or the time required for, the performance of any part of the work, whether or not changed by the order, an equitable adjustment in the TO Agreement price shall be made and the TO Agreement modified in writing accordingly. The TO Contractor must assert in writing its right to an adjustment under this section within thirty (30) days of receipt of written change order and shall include a written statement setting forth the nature and cost of such claim. No claim by the TO Contractor shall be allowed if asserted after final payment under this TO Agreement. Failure to agree to an adjustment under this section shall be a dispute under the Disputes clause of the Master Contract. Nothing in this section shall excuse the TO Contractor from proceeding with the TO Agreement as changed.

3. Time for Performance

Unless terminated earlier as provided in the Master Contract, the TO Contractor shall provide the services described in the TO Proposal and in accordance with the CATS TORFP upon receipt of a NTP from the TO Manager. The term of this TO Agreement is for a period of insert time for performance, commencing on the date of NTP and terminating on _____, 200__.

4. Consideration and Payment

- 4.1 The consideration to be paid the TO Contractor shall be done so in accordance with the CATS TORFP and shall not exceed the total dollar amount of task order. Any work performed by the TO Contractor in excess of the not-to-exceed ceiling amount of the TO Agreement without the prior written approval of the TO Manager is at the TO Contractor's risk of non-payment. See Section 2.9 Change Orders of the TORFP.
- 4.2 Payments to the TO Contractor shall be made as outlined Section 2 - Scope of Work of the CATS TORFP, but no later than thirty (30) days after the TO Requesting Agency's receipt of an invoice for services provided by the TO Contractor, acceptance by the TO Requesting Agency of services provided by the TO Contractor, and pursuant to the conditions outlined in Section 4 of this Agreement.
- 4.3 Each invoice for services rendered must include the TO Contractor's Federal Employer Identification Number. Charges for late payment of invoices other than as prescribed by Title 15, Subtitle 1, of the State Finance and Procurement Article, Annotated Code of Maryland, as from time-to-time amended, are prohibited. Invoices must be submitted to the TO Manager unless otherwise specified herein.
- 4.4 In addition to any other available remedies, if, in the opinion of the TO Procurement Officer, the TO Contractor fails to perform in a satisfactory and timely manner, the TO Procurement Officer may refuse or limit approval of any invoice for payment, and may cause payments to the TO Contractor to be reduced or withheld until such time as the TO Contractor meets performance standards as established by the TO Procurement Officer.

IN WITNESS THEREOF, the parties have executed this TO Agreement as of the date hereinabove set forth.
