The facts about
PASSWORD SECURITY

Don't share your password!

Your password is the key to your data and identity. Protect it the way you protect your wallet.

Never reuse passwords!

If a password is breached, every account using that password is compromised.

Know the rules and policies.

Your organization has designed its policies and procedures to protect you. Familiarize yourself with them and you'll be much safer.

sɑl1ys3Ash0r3

Use passphrases.

A passphrase is longer and more complicated than a password and is harder for someone to crack.
